Birmingham, Montgomery, Auburn, and Lowndes Lead The Way—

First Fund Report Shows $750,000 Already Given

An Old Pro Explains—Alvin A. Biggio (right), General Chairman of the Development Program, has become an expert at fund raising, not because he has been at it very long but because of the concentrated effort he has been giving his job as a vounteer for Auburn. Here he gives some tips to David Canon '38, Opelika chairman for the Auburn Development Program.

Gifts to the Auburn Development Program had passed the $750,000 mark by mid-April, according to an announcement by Alvin A. Biggio '26, General Chairman of the Program. With organization still underway in many areas and solicitation just begun in others, a major portion of gifts to date have come from Birmingham, Montgomery, Auburn, and Lowndes County, areas that set up campaign organizations early.

Practically all donations received come as the result of advance and special gifts solicitations; general alumni solicitations for most areas are planned for later in the year.

In the forefront in total contributed is Birmingham (Jefferson County). According to J. Fred Shackelford '29, advance gifts chairman, and Thomas F. Hobart '27, special gifts chairman, Birmingham workers have reached $300,000 on their way to a one-million dollar goal.

Montgomery area, which is seeking a $500,000 goal, has passed the $150,000 mark, according to reports from J. Mills Thornton '37, Central Alabama chairman, and Edward L. Lowder '34, Montgomery County chairman.

Charles Rush '29, Auburn chairman, reports that solicitors on The Plain have already raised $41,825 as a portion of their share of a Lee County goal not yet announced. Mr. Rush's committee does not include the general faculty for Auburn University, which is developing its own campaign organization.

Before the end of March, little Lowndes County with a handful of Auburn alumni over-subscribed its $8,125 quota with donations totaling $8,500, according to a report from Chairman David M. Lyon '44.

Commenting on progress to this point Chairman Al Biggio said, "With the program gaining momentum, we can confidently expect to pass the one-million dollar mark within a few weeks. In the $750,000 plus already reported are two gifts of $100,000 each. Other gifts that large, or larger, are expected before we complete the advance gifts phase."

Mr. Biggio expressed his deep gratification at the response of business and industry to the campaign and complimented business and industrial leaders upon their insight in helping provide for "quality education at Auburn for the benefit of Alabama's progress and economy."

"Many of our alumni have responded magnificently already. To give an example, one alumnus made a gift of seven times that which we suggested that he might want to give. Examples of such devotion to Auburn and the ideal of a great university make the Development Program work truly inspiring," Mr. Biggio concluded.

Modern Huck Finn Plans To Be Auburn Student

Over in Newnan, Ga., a red-haired, freckled youngster that is one of 17 finalists for the role of Huck Finn or Tom Sawyer on a national television series let it be known that he is a War Eagle fan—and Billy Flanagan is an excellent prospect for Auburn.

First, he has the insight to prefer the role of Huck to that of Tom Sawyer. Second, if he doesn't (or didn't—To our knowledge the final screening hasn't been completed, but we aren't sure) get the role he will be disappointed but he won't bother with tears. And finally if he gets the role he will bank the money to come to Auburn.

Billy was found in a nationwide search that turned up 873 applicants for the role—and as we have noted, our last information showed him still in with the field narrowed to 17 applicants.

If he doesn't get the part, he is still away ahead of lot other youngsters his age (almost 11) that haven't looked ahead to Auburn.

Of course no educational institution can afford a modern lad the kind of education that Huckleberry Finn got from his life along and on the Mississippi during the commercial heyday of the Father of Waters. But four years in the classrooms of the Loveliest Village of The Plain offer the best substitute that one can think of.

Dean Pumphrey To Speak To Birmingham Workers

On April 26 Fred H. Pumphrey, dean of the Auburn School of Engineering, will be a special guest speaker at a meeting of Birmingham volunteer workers in the Auburn Development Program. He will address a joint meeting of advance and special gifts committee workers, who are seeking one million dollars for the Development Fund.

Autauga Follows Lead Of Neighbor Lowndes County

Auburnites in Autauga County, under the leadership of H. Owen Murfee, Jr., '33 of Prattville, seem to be following the lead of Auburn alumni in neighboring Lowndes County, the first group to over-subscribe their Development Fund quota.

For their kick-off meeting on April 8, Autauga alumni gathered a throng of 75, surely a majority of Auburn alumni in this county that like Lowndes is small, population-wise—and all of those 75 are now busily striving to see how quickly they can raise an $11,000 quota.

As Development Plans Progress—

Alumni Enthusiasm Snowballs

Mobilization of volunteers to seek funds in the $2,594,000 immediate phase of the Auburn Development Program continues apace in many areas, while solicitation is well underway in Birmingham, Montgomery, Auburn, and Lowndes County. Additional prominent alumni have accepted positions as chairmen and committeemen in several Alabama counties and in cities outside the state. Formal kick-off programs have been held recently in some cities and many others are planned for the near future.

Among the new chairmen are Dr. Roy B. Sewell '22, Georgia State Chairman; Dr. Ben S. Gilmer '26, Atlanta; Dr. John K. Hodnette '22 and Joseph D. Hughes, '31, Pittsburgh, Pa., David Roberts '39, Mobile; Frank Tilton '19, Shreveport, La.; Redus Collier '27, Tennessee Valley Area of Alabama; William H. Eiland, '47, Chattanooga; Charlton H. Williams, Columbus, Ga.; Jesse Forrester '23, Dothan; Winston S. Garth '40, Athens (Ala.); Samuel McClendon '40, Moulton; and H. Owen Murfee, Jr., '33, Prattville.

Kick-off meetings held recently in Gadsden, Dothan, Opelika, and Prattville have brought out enthusiastic groups of volunteers. Solicitations in these cities and throughout the counties in which they are located will be well underway by the time this paper reaches alumni.

Other areas planning kick-off meetings between now and the middle of May are Atlanta, Mobile, Columbus (Ga.), Pittsburgh (Pa.), Chattanooga, Decatur (Ala.), Huntsville, and the Tri-Cities—Florence, Sheffield, and Tuscumbia.

Attendance of volunteers at kick-off meetings continues to evidence the heart-warming response of alumni to the Development Program.

On March 29, in Gadsden 40 came to hear General Chairman Alvin A. Biggio and President Ralph B. Draughon discuss the program and outline organizational plans.

Dr. Draughon, Alumni Secretary Joe B. Sarver, Jr., and Yetta Samford, Jr., were guest speakers at an Opelika kick-off on April 11 that 41 attended.

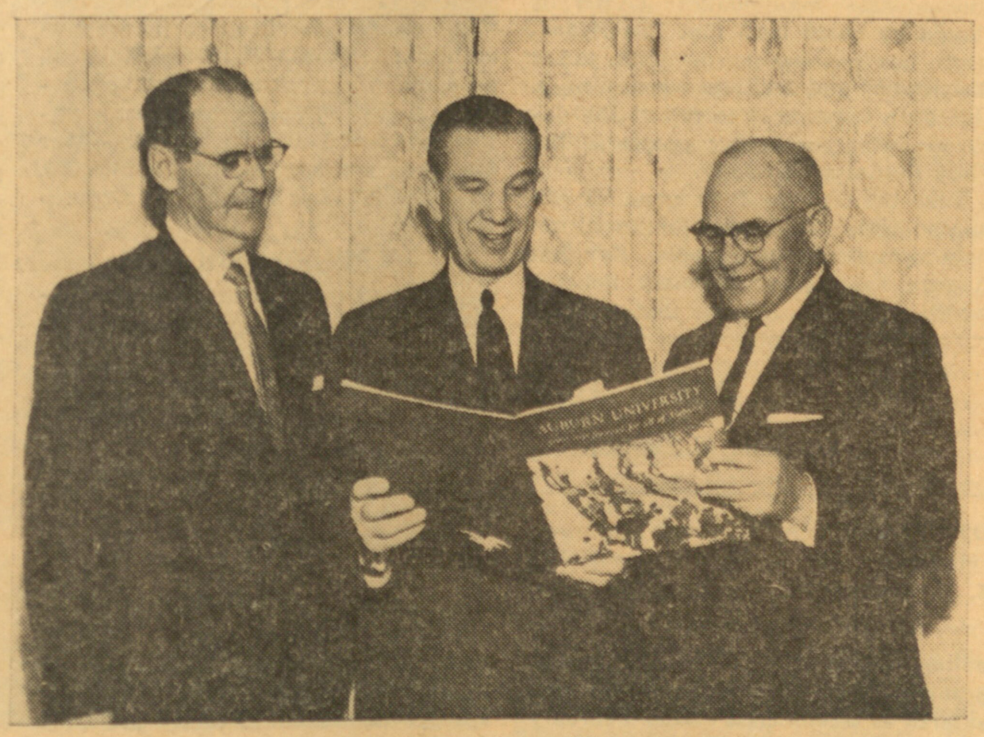
In Prattville on April 8, Autauga alumni and friends 75 strong came out to hear Coach Joel Eaves, Alumni President Edmund C. Leach, Dr. Fred Allison, and Rex McKissick.

Houston County also turned out 75 to hear Dr. Draughon, Coach Ralph Jordan, Dean E. V. Smith, and Joseph B. Sarver, Jr., at an April 7 kick-off.

Committee lists for most of the recently organized areas have not reached **The Alumnews** yet, but Dothan and Columbus reports are in.

Working with Charlton H. Williams in Columbus are Paul McKinney, Richard Brickerstaff, and J. Paul Calhoun.

Assisting Jesse Forrester in Dothan and Houston County are Charles H. Adams '19, Harold Davis, Richmond M. Flowers '43, Dr. K. Lamar Hart '40, Robert H. Hollis, Jr., '50, Robert M. Holman, Jr., '56, Max Jones '29, Arthur A. Morris, Jr., '52, Julian T. Turner '31, Dr. James M. Welden '38, and C. W. (Red) Northcutt.



A Distinguished Trio—Promoting the Auburn University Development Program in Georgia are the well-known business executives above: Dr. Roy B. Sewell (left) is state chairman; Dr. Ben S. Gilmer (center) is Atlanta chairman; and Mr. Clifford B. McManus is top committeeman for the Atlanta area.

The ravages of time have marred the portrait of Dr. William LeRoy Broun that hangs in Langdon Hall, but changes that this revolutionary past-president of Auburn wrought on The Plain are of a more enduring nature. Resigning in 1883 when the Board of Trustees failed to approve his plan of re-organization, Dr. Broun accepted re-appointment a year later with the acceptance of his plans. Subsequently he was responsible for establishment of Auburn's state-wide Agricultural Experiment Station System, for the admission of women students, and for a complete revision of the basic course of study. At the annual meeting of the Alabama Historical Association in Selma this month, Dr. Malcolm McMillan (above with portrait), Auburn research history professor, will pay tribute to Dr. Broun in a paper entitled "William LeRoy Broun: Soldier, Scientist, and Pioneer in Agricultural Education in the South."

From The Editor's Cubbyhole—

Biggio Challenges Us

By JERRY RODEN, JR., '46

Alvin A. Biggio, General Chairman of the Auburn Development Program, told a group of faculty members early this month that "Auburn's only weakness has been and is that we often don't think big enough." Mr. Biggio is an astute businessman, an executive for a very big business, and a devoted Auburn alumnus; the full implication of his words deserves our serious attention. He was talking in the circle of the Auburn family and his aim was honest evaluation for the purpose of improvement.

In the remainder of his talk Mr. Biggio made clear that he considers the Development Program a great stride toward remedying our greatest defect, and certainly this too was more than lip service. As General Chairman of the Development Program Al Biggio is taking week after week away from his job and night after night away from home and more relaxing pleasures. Progress reports from Development Headquarters indicate that many alumni are joining him enthusiastically. In terms of private capital gifts these alumni are already thinking big about the matter of finance necessary to provide for an over-all educational program of unquestionable excellence. However, the immediate goal of the Development Program is as yet scarcely one-third achieved and many of us must follow the example of enthusiastic and generous leaders to finish this step in the true Auburn Spirit.

If we are to overcome our greatest weakness, all Auburn men and women must not only support the Development campaign generously and enthusiastically but also think imaginatively and act creatively along other lines. To serve Auburn in all possible ways while one maintains his home and meets the demands of his profession requires a capacity for balanced thinking and comprehensive action. Auburn men and women have that capacity in a large measure, as men such as Mr. Biggio demonstrate amply. The challenge to think big about Auburn is a challenge to think big about ourselves, and the opportunity symbolized by the Development Program is an opportunity for self-development too, for growth in wisdom and honor.

Auburn needs alumni action along many lines; space here permits only the suggestion of a few that are particularly important. Furthermore, I can't detail precisely what each alumnus should do, but for each there is an opportunity and a responsibility that he can fulfill with a little imagination and initiative.

For alumni living in the State of Alabama there is a particular challenge in proration. Recently, President Ralph B. Draughon sent, regretfully, a belt-tightening message to employees of Auburn University as a result of the proration of the current budget. Nowadays, this procedure is the rule rather than the exception. Proration has been a fact of life at Auburn throughout this editor's tenure with *The Alumnews*. Its crippling effects upon the University's goal of establishing a program of uniform excellence are difficult to estimate—and I want to save the details for further treatment here after a thorough study.

However, now is the time to begin doing something about future prorations—to make plans to prevent them for the good of Auburn in particular and that of public education in Alabama in general. Proration in times of general prosperity is not a necessity; it is the result of faulty planning, wishful thinking, and miserly financing. It is not the fault of a few people, but of an attitude of all Alabama citizens. If enough of us discuss the problem seriously with our legislators and state administrators and then support their plans for remedy, a solution can and will be found.

For all alumni there is the challenge of encouraging top quality high school students to enter Auburn. Ours is a *democratic* institution in the best sense of that too often abused term. The door is not closed to any that meets minimum requirements for college entrance. This is as it should be, but it does not mean that we should not endeavor to raise the average level of intelligence of the whole student body by encouraging the most fit to come here. Students with inquiring minds, a sincere, eager curiosity, inspire both faculty and fellow students to new heights.

Also for all alumni there is the challenge to encourage our faculty members by recognizing meritorious teaching and research and by rewarding them personally with the proper tributes of praise. That teachers are not in the business solely for material gain is a commonplace; that they are human and receptive to expressions of appreciation is another. However, though most of us are lavish in our praise of the teacher as an abstract type, too few of us offer the individual teacher the kind of discriminating honor that shows understanding and appreciation of special work and merit. Yet, such honor is the only tribute that an intelligent teacher can accept as significant, and it is one of his greatest sources of inspiration.

Finally, all alumni can encourage faculty members and the administration to act courageously upon their highest convictions by demonstrating that former students are conversant with and interested in needs and goals of the University and each major segment of it. The letters column in this paper has been created especially for that purpose, and once each month *The Alumnews* goes to all faculty and staff members of Auburn University.

Behind Our Headlines

An Opportunity To Disagree

Margaret Mead, America's best-known woman scientist, plunges happily into an emotion-laden question in our page 4 feature. Her answer isn't designed to placate ruffled feelings and thus provides opportunity for ample interesting discussion.

Dr. Mead is an anthropologist, a world traveler, a productive writer and lecturer, and trenchant observer of native cultures at home and abroad. She is president of the American Anthropological Association and a past president of the World Federation for Mental Health.

Well-Deserved Orchids

Out of the Extension Service's self-study are coming many laudable improvements in the operations of a group that was already serving Alabama commendably (See story on page 5). This effort indicates again—and will in the months and years ahead demonstrate conclusively, we believe—that no matter how effectively a job is being done there is always room for great improvement by those who are willing to stop, analyze, and plan anew.

It has been our privilege to see that workers with the Extension Service are not only willing to examine their task and seek better ways to do it but are also enthusiastic about an opportunity to do so. In passing along these well-deserved orchids to the entire Extension staff, we want to commend Extension leaders particularly for their imaginative professional improvement program.

The new professional improvement plan has drawn praises from states throughout the region and from the Federal Extension Service in Washington. It should; for it is an intelligent, practical plan that both encourages and permits its workers to stay abreast of developments in their field in order that they may serve better. The plan may well become a model for Extension groups elsewhere and it could serve profitably as a blueprint for other groups charged with education or educational responsibilities.

Simple Mathematics

There might be fewer emotional disturbances about football tickets if we would all stop to use some simple fundamental mathematics (And it should be noted here that *The Alumnews* has nothing to do with ticket distribution and decisions concerning it. Our only function is to report the decisions after the proper people in the Field House make them).

Take the Georgia Tech game for example: Note that Legion Field will not hold more than 45,000 people. Say that Auburn has control of every ticket—which it hasn't. Assume that for that game every dues-paying alumnus—all 11,000 plus of them—decides to purchase his proffered maximum of four seats: 44,000 seats are gone without considering the needs of 10,000 students and faculty members and their wives.

Consider that the Alabama game is a home-town game in a sense for both Auburn and Alabama, give half of the capacity to Alabama, and use the same process and figures used in the Tech game except for allowing only two tickets to each dues-paying alumnus and you can understand the Field House's dilemma. The Auburn family is just getting bigger and bigger.

A Heart-Warming Example

While the average alumnus was just becoming aware of the Auburn University Development Fund, alumni in little Lowndes County got together last month and over-subscribed their quota to it. For details of that inspiring story see page 7. If the Lowndes' contribution of $8,500 doesn't appear impressive beside the $2,594,000 immediate goal, note that if all alumni would contribute what the average Lowndes alumnus has contributed, we would go over the goal by approximately $400,000, without the aid of friends and corporations.

A Mistaken Attitude

"Arithmetic can be interesting!"—Steeped in the odor of press agentry these words leap up from a wrinkled press release, filed and saved in the Cubbyhole for countless months for some now forgotten purpose. How revealing they are of a mistaken attitude and of the insidious influence of advertising with the mass appeal.

Our real problem is not to show children that arithmetic, reading, history, etc. can be interesting; rather it is to maintain the child's eager fascination with life long enough for him to learn—before he is infected with our apathy—that these subjects are avenues to exciting new adventures of the mind.

THE AUBURN ALUMNEWS APRIL, 1960

Vol. XV, No. 2 General Edition

PRESIDENT: Edmund C. Leach, '15; EXECUTIVE SECRETARY: Joseph B. Sarver, Jr., '37; EXECUTIVE COMMITTEE: Rex McKissick, '39; L. Seawell Jones, '40; John H. Lanier, '49; Ben S. Gilmer, '26; E. N. Merriwether, '30; Dr. Donald A. Goodall, '42; Roy B. Sewell, '22, ex-officio.

THE AUBURN ALUMNEWS is published by Auburn Alumni Association, Auburn University, Auburn, Ala. Jerry Roden, Jr., '46, is editor. The staff includes Bill Beckwith, '51, sports editor; Lester King, '51, API photographer. The Auburn Alumnews was entered as second class matter February 4, 1946, at the Post Office, Auburn, Alabama, under the Act of August 24, 1912.

He Asks Nothing For Himself, But Much For Auburn—

Dr. Fred Allison — Genius With Human Touch

In 1953 compulsory retirement at age 70 brought an end to Dr. Fred Allison's formal association with Auburn University as dean of the Graduate School and head professor of the Physics Department. However, an arbitrary law was not enough to disrupt his brilliant career as physicist, teacher, and administrator or to terminate his long association with Auburn. Now during the week he may be found in Montgomery at Huntingdon College, where he continues to teach and administer as head of the Department of Physics and Mathematics.

But on weekends his slight figure and quiet voice are still familiar on The Plain, for he and Mrs. Allison maintain their home on Magnolia Avenue across from Broun Hall. They not only visit old friends here, but Dr. Allison also stays in touch with the University that he served so well and that he loves devotedly. On Saturdays he may often be found at his old haunt in the Tichenor Hall laboratory in which he spent untold late hours and weekends for many years. There he consults with Dr. Gordon Hughes, an associate from 1933 to 1953, and they discuss further progress in research on which they have worked together.

Occasionally, too, Dr. Allison visits the Graduate School office in Samford Hall for conferences with Graduate Dean W. V. Parker and Mrs. Ruth Brittin, assistant to the dean. Dr. Parker is a fellow scientist and Mrs. Brittin is a former colleague in the Graduate School. Dr. Allison has students at Huntingdon now, as he used to have at Auburn, whom he has inspired to pursue graduate studies in physics, and some of them come to Auburn for graduate studies.

Even through his almost casual visits about the campus, Dr. Allison continues to make additional friends in Auburn among the newcomers that he meets. In his modest, unassuming way, he has a genius for inspiring affection in all sorts of people. He probably comes as close as any normal man can to transcending all forms of pettiness.

Dr. Allison's abiding modesty and unique human touch perhaps tend to obscure for many people some other qualities and some significant achievements for which he is due tribute. But it is in keeping with his character that he does not care to have that tribute paid—that he would consent to having a feature on him printed in *The Alumnews* only because he was persuaded that it might call attention in a special way to a vision that he has for Auburn.

Upon occasion, President Ralph B. Draughon has referred to Dr. Allison as "a giant of a physicist." He is that and more, and Auburn is honored that most of his outstanding accomplishments in research were achieved here in the years from 1922 through 1953.

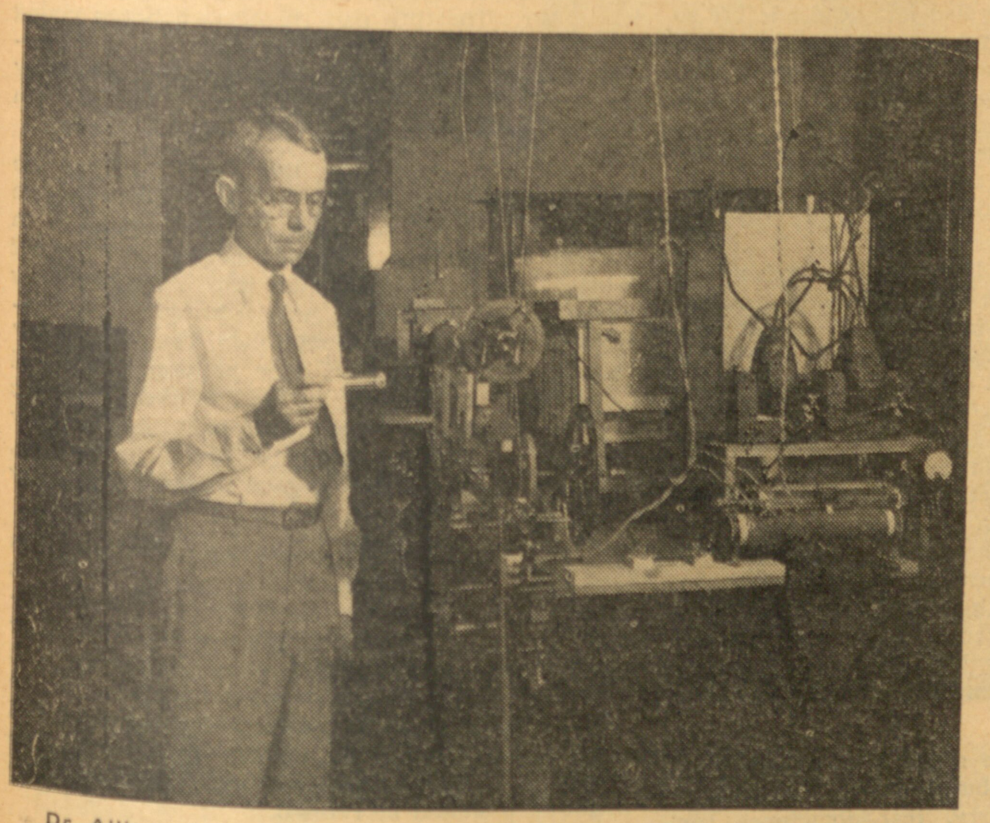
Dr. Allison and his Auburn associates were the first scientists to publish evidence of the existence of deuterium, the heavy isotope of hydrogen that is a basic ingredient of the hydrogen bomb. They published this evidence in 1932 and in the same year published evidence of the existence of two then unknown elements 85 and 87, for which Dr. Allison suggested the names Alabamine and Virginium.

Evidence of the existence of the two elements and of the existence of deuterium was secured through the use of the magneto-optic method of analysis that Dr. Allison developed. Full reports of his work on these elements are contained in publications carried by the leading science journals in both physics and chemistry. Also, several standard general reference books credit Dr. Allison with the discovery of elements 85 and 87. However, in keeping with his wishes, it should be noted here that there is some question in some quarters about the discovery. The question arises basically because the magneto-optic method has not been completely accepted, despite the accuracy of a tremendous volume of unquestionably accurate analysis that has been done here by the method.

To the layman in science the argument about the magneto-optic method seems far-fetched; for if it works with known elements and quantities ascertainable by other methods, there seems to be no reason to question its function with unknowns — particularly, when later research by older methods confirms its findings of previously unknown elements and isotopes. Nevertheless, the question remains for a few physicists because the principle of the method is not yet fully explicable.

Again it is characteristic of Dr. Allison that he appears much more interested in establishing unquestionably the validity of the magneto-optic method because of its great potential for further research, rather than because of any credit that he might receive. A true scientist, fully convinced of the complete soundness of the pioneering work that he has done, he wants the work itself to stand the test of time and further research without any question of personalities entering and confusing the issue. Nevertheless, when all the questions are settled, the great honors that Dr. Allison has received will undoubtedly be multiplied many times.

Auburn's debt to Dr. Allison is for far more than his pioneering research efforts. When he came here in 1922 as head professor of physics, he had a one and one-half man department; in addition to himself there was an assistant that spent half of his time with the Department of Mathematics. They had one lecture room, two small rooms for laboratories, a little shop, and 300 students in basic physics. The department offered only one advanced course in physics. Looking at the task before him, the young physicist did not think that the kind of job needed could be done under the limitations. That it was done and that he did it simultaneously with his own great research is now a matter of historical record.



Dr. Allison at work in Tichenor Hall laboratory during his Auburn tenure

Last year the influence of the Auburn Physics Department upon its students was amply documented in a revealing study. The study was made to determine by institution what percentage of those receiving baccalaureate degrees in physics went on to earn Ph.D.'s at universities of their choice in the years 1952-1957. With a percentage of 38.1, Auburn ranked high in the nation, was tied with California Institute of Technology. In the deep South Auburn had a higher percentage than any other college or university—This is the record of the Physics Department that Dr. Fred Allison built from a one and one-half man staff in 1922, that he headed until 1953, and that has since been headed by one of his former Auburn students, Dr. Howard Carr.

In 1949 Dr. Allison assumed duties as Dean of the Graduate School and director of the Auburn Research Foundation in addition to those he already had as head of the Physics Department. Of his outstanding work in these positions none is more significant than his leadership in establishing Auburn's doctoral program. With the encouragement of President Draughon, Dr. Allison set out with other dedicated members of the faculty to establish a doctoral program on "a high plane." The growing prestige of Auburn's doctoral program, the responsible positions held by its graduates, and the increasing number of doctoral students here attest to how well they laid a good foundation by studying and deriving principles from the doctoral programs at the best universities in the country.

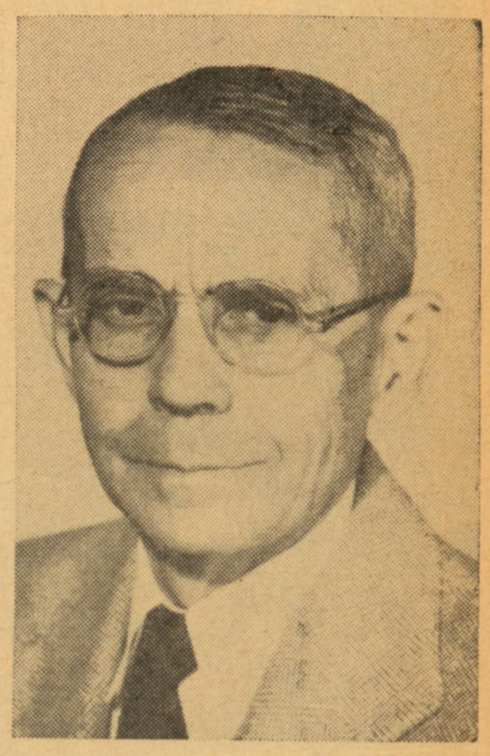
Immediately after his retirement from Auburn, Dr. Allison went back to teach at Emory and Henry College in Virginia for two years. This was truly a return home, for he was born in Glade Spring, Va., and earned his first degree at Emory and Henry.

It was there he held his first teaching appointment through which he earned a portion of the money that financed his graduate studies at Johns Hopkins and the University of Chicago. As a young instructor there, he fell in love with one of his charming students, Miss Elizabeth Kelly, who became Mrs. Fred Allison. A few years later from an appointment at another Virginia institution, the University of Virginia, young Dr. Fred Allison came to Auburn in 1922.

From Emory and Henry in 1955, Dr. and Mrs. Allison went to Chulalongkoin University in Bangkok, Thailand, where Dr. Allison taught and consulted as a representative of the U.S. Government and of the University of Texas. With the people of Thailand, he had "a delightful relationship" and still corresponds with them.

Upon his return from Thailand, he found an opportunity to teach and work at Huntingdon College, a place close enough by to permit continuing his association at Auburn. There as always he began building. Huntingdon then had no department in physics, although it had a well-developed program in chemistry and biology. To no one's surprise, Huntingdon now offers a well-rounded major in physics.

The great opportunities at Huntingdon are not enough to satisfy Dr. Allison's insatiable appetite for work. He spends his summers now with the Air Force at Holloman Air Force Base in New Mexico as a consultant on the huge solar furnace that is being built atop the 9,000 foot Mt. Cloudcroft. He particularly enjoys this work because



Dean Fred Allison . . . a worker

there he meets not only Air Force scientists but many consultants from other colleges and universities, and thus fulfills his passion for "staying abreast of the developments in his field."

With the initiation of the Auburn University Development Program last fall, Dr. Allison's relationship with Auburn came more strongly into focus again. For the first goal in the Development Program is the building of a Nuclear Sciences Center here. Fourteen years ago, Dr. Allison, seeing the great possibilities for the peaceful uses of nuclear science, foresaw the need for such a center at Auburn. He explained his vision to President Ralph B. Draughon, who, Dr. Allison says, immediately saw the great implications of the idea. Together they went to work to bring about the development of a center. As a result, Auburn was one of the first four colleges to receive approval for a nuclear center from the Atomic Energy Commission and the promise of assistance if certain conditions were met.

The conditions were that Auburn secure the funds for building the center. Auburn's thwarted efforts to secure finances for this and other purposes during the past few years is too well known to require comment. Needless to say, the Development Program comes to Dr. Allison as the means to the realization of a long-held dream. That he will not be formally associated with Auburn when the dream becomes reality does not dampen his enthusiasm at all.

Of the proposed Nuclear Sciences Center, he says, "It will make Auburn a center for nuclear science. There will not be many such centers to fill the educational needs in this vital science. The center will provide benefits in virtually all areas of instruction and research at Auburn. This will prove to be a historical achievement."

When the Nuclear Sciences Center becomes a reality and Auburn and the countless people she will serve through it begin to receive its benefits, Dr. Fred Allison will again deserve more honor than his modest nature desires. For his was the vision that inspired President Ralph Draughon, who has sought so persistently to establish such a center that it has now become the goal of the thousands of Auburn men and women that are working and contributing to the Development Program.

Auburn All-Stars

Auburn has placed five men on College All-Star starting lineups since the first game in Chicago in 1934. Center Tex Warrington was the first in 1945, followed by Quarterback Travis Tidwell (1950), Halfback Dave Middleton (1955), Tackle Frank D'Agostino (1956) and End Jimmy Phillips from the 1957 national champs.

Is College Compatible With Marriage?

By MARGARET MEAD

(Copyright 1960 by Editorial Projects for Education, Inc. All rights reserved.)

All over the United States, undergraduate marriages are increasing, not only in the municipal colleges and technical schools, which take for granted a workaday world in which learning is mostly training to make a living, but also on the green campuses once sacred to a more leisurely pursuit of knowledge.

Before we become too heavily committed to this trend, it may be wise to pause and question why it has developed, what it means, and whether it endangers the value of undergraduate education as we have known it.

The full-time college, in which a student is free for four years to continue the education begun in earlier years, is only one form of higher education. Technical schools, non-residence municipal colleges, junior colleges, extension schools which offer preparation for professional work on a part-time and indefinitely extended basis, institutions, which welcome adults for a single course at any age: all of these are "higher," or at least "later," education. Their proliferation has tended to obscure our view of the college itself and what it means.

But the university, as it is called in Europe—the college, as it is often called here—is essentially quite different from "higher education" that is only later, or more, education. It is, in many ways, a prolongation of the freedom of childhood; it can come only once in a lifetime and at a definite stage of development, after the immediate trials of puberty and before the responsibilities of full adulthood.

The university student is a unique development of our kind of civilization, and a special pattern is set for those who have the ability and the will to devote four years to exploring the civilization of which they are a part. This self-selected group (and any other method than self-selection is doomed to failure) does not include all of the most able, the most skilled, or the most gifted in our society. It includes, rather, those who are willing to accept four more years of an intellectual and psychological moratorium, in which they explore, test, meditate, discuss, passionately espouse, and passionately repudiate ideas about the past and the future. The true undergraduate university is still an "as-if" world in which the student need not commit himself yet. For this is a period in which it is possible not only to specialize but to taste, if only for a semester, all the possibilities of scholarship and science, of great commitment, and the special delights to which civilized man has access today.

One of the requirements of such a life has been freedom from responsibility. Founders and administrators of universities have struggled through the years to provide places where young men, and more recently, young women, and young men and women together, would be free—in a way they can never be free again—to explore before they settle on the way their lives are to be lived.

This freedom once, as a matter of course, included freedom from domestic responsibilities—from the obligation to wife and children or to husband and children. True, it was often confused by notions of propriety: married women and unmarried girls were believed to be improper dormitory companions, and a trace of the monastic tradition that once forbade dons to marry lingered on in our men's colleges. But essentially the prohibition of undergraduate marriage was part and parcel of our belief that marriage entails responsibility.

A student may live on a crust in a garret and sell his clothes to buy books; a father who does the same thing is a very different matter. An unmarried girl may prefer scholarship to clerking in an office; as the wife of a future nuclear physicist or judge of the Supreme Court—or possibly of the research worker who will find a cure for cancer—she acquires a duty to give up her own delighted search for knowledge and to help put her husband through professional school. If, additionally, they have a child or so, both sacrifice—she her whole intellectual interest, he all but the absolutely essential professional grind to "get through" and "get established." As the undergraduate years come to be primarily not a search for knowledge and individual growth, but a suitable setting for the search for a mate, the proportion of full-time students who are free to give themselves the four irreplaceable years is being steadily whittled down.

Should we move so far away from the past that all young people, whether in college, in technical school, or as apprentices, expect to be married and, partially or wholly, to be supported by parents and society while they complete their training for this complex world? Should undergraduates be considered young adults, and should the privileges and responsibilities of mature young adults be theirs, whether they are learning welding or Greek, bookkeeping or physics, dressmaking or calculus? Whether they come from educated homes or from homes without such interests? Whether they look forward to the immediate gratifications of private life or to a wider and deeper role in society?

As one enumerates the possibilities, the familiar cry, "But this is democracy," interpreted as treating all alike no matter how different they may be, assaults the ear. Is it in fact a privilege to be given full adult responsibilities at eighteen or twenty, to be forced to choose someone as a lifetime mate before one has found out who one is, oneself—to be forced somehow to combine learning with earning? Not only the question of who is adult, and when, but of the extent to which a society forces adulthood on its young people, arises here.

Civilization, as we know it, was preceded by a prolongation of the learning period—first biologically, by slowing down the process of physical maturation and by giving to children many long, long years for many long, long thoughts; then socially, by developing special institutions in which young peope, still protected and supported, were free to explore the past and dream of the future. May it not be a new barbarism to force them to marry so soon?

"Force" is the right word. The mothers who worry about boys and girls who don't begin dating in high school start the process. By the time young people reach college, pressuring parents are joined by college administrators, by advisers and counselors and deans, by student-made rules about exclusive possession of a girl twice dated by the same boy, by the preference of employers for a boy who has demonstrated a tenacious intention of becoming a settled married man. Students who wish to marry feel they are making magnificent, revolutionary bids for adulthood and responsibility; yet, if one listens to their pleas, one hears only the recited roster of the "others"—schoolmates, classmates, and friends—who are "already married."

The picture of embattled academic institutions valiantly but vainly attempting to stem a flood of undergraduate marriages is ceasing to be true. College presidents have joined the matchmakers. Those who head our one-sex colleges worry about transportation or experiment gingerly with ways in which girls or boys can be integrated into academic life so that they'll stay on the campus on weekends. Recently the president of one of our good, small, liberal arts colleges explained to me, apologetically, "We still have to have rules because, you see, we don't have enough married-student housing." The implication was obvious: the ideal would be a completely married undergraduate body, hopefully at a time not far distant.

With this trend in mind, we should examine some of the promises involved. The lower-class mother hopes her daughter will marry before she is pregnant. The parents of a boy who is a shade gentler or more interested in art than his peers hope their son will marry as soon as possible and be "normal." Those who taught GI's after the last two wars and enjoyed their maturity join the chorus to insist that marriage is steadying: married students study harder and get better grades. The worried leaders of one-sex colleges note how their undergraduates seem younger, "less mature," or "more underdeveloped" than those at the big coeducational universities. They worry also about the tendency of girls to leave at the end of their sophomore year for "wider experience"—a simple euphemism for "men to marry."

And parents, who are asked to contribute what they would have contributed anyway so that the young people may marry, fear—sometimes consciously and sometimes unconsciously—that the present uneasy peacetime will not last, that depression or war will overtake their children as it overtook them. They push their children at ever younger ages, in Little Leagues and eighth-grade proms, to act out—quickly before it is too late—the adult dreams that may be interrupted. Thus they too consent, connive, and plan toward the earliest possible marriages for both daughters and sons.

Undergraduate marriages have not been part of American life long enough for us to be certain what the effect will be. But two ominous trends can be noted.

One is the "successful" student marriage, often based on a high-school choice which both sets of parents have applauded because it assured an appropriate mate with the right background, and because it made the young people settle down. If not a high-school choice, then the high-school pattern is repeated: finding a girl who will go steady, dating her exclusively, and letting the girl propel the boy toward a career choice which will make early marriage possible.

These young people have no chance to find themselves in college because they have clung to each other so exclusively. They can take little advantage of college as a broadening experience, and they often show less breadth of vision as seniors than they did as freshmen. They marry, either as undergraduates or immediately upon graduation, have children in quick succession, and retire to the suburbs to have more children—bulwarking a choice made before either was differentiated as a human being. Help from both sets of parents, begun in the undergraduate marriage or after commencement day, perpetuates their immaturity. At thirty they are still immature and dependent, their future mortgaged for twenty or thirty years ahead, neither husband nor wife realizing the promise that a different kind of undergraduate life might have enabled each to fulfill.

Such marriages are not failures, in the ordinary sense. They are simply wasteful of young, intelligent people who might have developed into differentiated and conscious human beings. But with four or five children, the husband firmly tied to a job which he would not dare to leave, any move toward further individual development in either husband or wife is a threat to the whole family. It is safer to read what both agree with (or even not to read at all and simply look at TV together), attend the same clubs, listen to the same jokes—never for a minute relaxing their possession of each other, just as when they were teen-agers.

Such a marriage is a premature imprisonment of young people, before they have had a chance to explore their own minds and the minds of others, in a kind of desperate, devoted symbiosis. Both had college educations, but the college served only as a place in which to get a degree and find a mate from the right family background, a background which subsequently swallows them up.

The second kind of undergraduate marriage is more tragic. Here, the marriage is based on the boy's promise and the expendability of the girl. She, at once or at least as soon as she gets her bachelor's degree, will go to work at some secondary job to support her husband while he finishes his degree. She supports him faithfully and becomes identified in his mind with the family that has previously supported him, thus underlining his immature status. As soon as he becomes independent, he leaves her. That this pattern occurs between young people who seem ideally suited to each other suggests that it was the period of economic dependency that damaged the marriage relationship, rather than any intrinsic incompatibility in the original choice.

Both types of marriage, the "successful" and the "unsuccessful," emphasize the key issue: the tie between economic responsibility and marriage in our culture. A man who does not support himself is not yet a man, and a man who is supported by his wife or lets his parents support his wife is also only too likely to feel he is not a man. The GI students' success actually supports this position: they had earned their GI stipend, as men, in their country's service. With a basic economic independence they could study, accept extra help from their families, do extra work, and still be good students and happy husbands and fathers.

There are, then, two basic conclusions. One is that under any circumstances a full student life is incompatible with early commitment and domesticity. The other is that it is incompatible only under conditions of immaturity. Where the choice has been made maturely, and where each member of the pair is doing academic work which deserves full support, complete economic independence should be provided. For other types of student marriage, economic help should be refused.

(Continued on page 9, Column 4)

Lowndes Auburnites Raise Development Quota

Auburn alumni in rural Lowndes County went over their quota for the Development Campaign in record time to set the pace for more-wealthy and more-populous areas. With slightly more than 3,000 white inhabitants in the sparsely-populated county, Lowndes Auburnites set out to raise a quota of $8,125. Before the end of March they had $8,500.

Fewer than 100 Auburn alumni are permanent residents of Lowndes and none of those are wealthy by current standards of industrial and commercial wealth. Lowndes' success is the result of a convincing demonstration of the Auburn Spirit. The $8,500 came from 56 donors. Of those contacted 98 per cent contributed.

Lowndes County over-subscribed its quota while solicitation was still in the first phase in many areas and while campaign organizations was still taking place in others. During this time Auburnites in heavily-populated Jefferson County (Birmingham) moved forward seeking one million dollars and those in Montgomery area got underway with solicitations to meet a $500,000 quota.

With the slogan "Put the fun in fund raising," Lowndes County Chairman David M. Lyon '44, Tyler cattleman and former Auburn football player, set out to organize fellow alumni. He received ready assistance from James W. Mathews '32 of Hayneville, Extension County Agent; E. R. Meadows '26, Lowndesboro cattleman; James W. Wible '34, Hayneville cattleman; Dr. William H. Lee '40, Ft. Deposit dentist; and Ned Ellis '53, Ft. Deposit cattleman, who joined him as committee members.

Mr. Meadows made a pace-setting gift, other committee members followed suit with their own gifts, and then they all went to work making personal visits to Auburn alumni and friends throughout the county. On March 25 Chairman Lyon called a meeting in Hayneville with President Ralph B. Draughon, Alumni Secretary Joseph B. Sarver, Jr., and H. E. Batchelder of the G. A. Brakeley Co. as guest speakers.

At the conclusion of the meeting, which 66 alumni and friends attended, Chairman Lyon and his committee totaled donations and pledges and found themselves only $200 short of their quota. They went back to personal contacts and wrapped the campaign up within the next two or three days with a quota over-subscribed.

Hard work, organization, and a generous share of the Auburn Spirit are due the credit for Lowndes County's success. Chairman Lyon and his fellow workers gave up several days from their work as well as their contributions to put Lowndes over the top. They did so, Mr. Lyon noted, not only because they appreciate what Auburn has done for them but also because some of them have children that will also want to attend Auburn.

Furthermore, committee members had fun while doing it. After expressing appreciation for the work of his fellow committeemen and for the generosity of practically all those solicited, Mr. Lyon noted "We do not have a single traffic light or parking meter in Lowndes County to slow us down when we start to do something."

Lowndes County isn't big in terms of population, isn't wealthy in terms of commerce and industry—there isn't a single industrial payroll in the county —, but it has lots of beautiful prairie pastures and a handful of Auburn alumni that know how to demonstrate the Auburn Spirit when the chips are down.

The following alumni and friends—in addition to Chairman Lyon and guests already mentioned—attended the Development Fund meeting in Hayneville March 25:

C. H. Rhyne '51, Benton; Dr. Rucker L. Staggers '53, Benton; O. P. Woodruff '45, Benton; Mrs. O. P. Woodruff '47, Benton; Dudley Mason '49, Benton; John Thomas Jones '51, Rt. 2, Hope Hull; Lewis E. Bell '35, Ft. Deposit; Jack C. Capps '51, Ft. Deposit; Mrs. Jack C. Capps '55, Ft. Deposit; Tommy Coleman '32, Ft. Deposit.

Henry F. Crenshaw '47, Ft. Deposit; Bobby A. Davis '56, Ft. Deposit; Mrs. Ned T. Ellis '55, Rt. 1, Ft. Deposit; Henry H. Tew '51, Ft. Deposit; Charles E. Lewis '57, Ft. Deposit; Ray Dean Bass '59, Hayneville; Stewart Mac Champion '31, Hayneville; Stewart M. Champion, Jr. '59, Hayneville; Mrs. Stewart M. Champion, Jr. '58, Hayneville; Walter J. Coker, Jr. '32, Hayneville; Alex L. Cooper '59, Hayneville.

Samuel T. Cooper '51, Hayneville; Mrs. Sarah C. Cooper '50, Hayneville; Lewis A. Easterly, Jr. '28, Hayneville; Guy G. Favor '50, Hayneville; Mrs. Mary Jane Shelley Favor '57, Hayneville; Thomas J. Gerald '46, Hayneville; Joseph A. Jones '40, Hayneville; David C. Till, Jr. '43, Rt. 1, Hayneville; Miss Betty Kay Wible '61, Hayneville; J. Thomas Wible '60, Hayneville; G. P. McPherson, Jr. '52, Rt. 2, Hope Hull.

Matt D. Holmes, Jr. '53, Letohatchie; Willie Dee DeBardeleben '43, Lowndesboro; Edward S. McCurdy '45, Lowndesboro; Miss Maxine Meadows '62, Lowndesboro; Eli W. Robinson, Jr. '43, Lowndesboro; Francis Middleton, Rt. 1, Sardis; Dr. Joseph G. Mayo '57, Rt. 1, Selma; G. Todd Meadows '57, St. Clair; Fred Holladay, Jr. '59, Tyler; Tom P. Middleton '51, Rt. 1, Tyler; Mrs. Tom P. Middleton '55, Rt. 1, Tyler.

Mills Thornton and Miss Priscilla Thornton, Montgomery; J. E. Shanahan, Benton; W. E. Mealing, Benton; Conrad Henderson, Ft. Deposit; Boston Massey, Hayneville; Mrs. James W. Mathews, Hayneville; Mrs. David M. Lyon, Rt. 1, Tyler; Harrell Hammonds Hayneville; Mr. and Mrs. Stuart X. Stephenson, Montgomery; Lewis Easterly III, Hayneville '65; Mr. and Mrs. Bryant Traylor, Tyler.

For The Past And For The Future—The Auburn alumni above headed the Development Drive that made Lowndes County the first area to over-subscribe its quota. They made their all-out effort in appreciation of what Auburn has done for them and in order that Auburn may do even more for future War Eagles such as those sitting on the floor above. At table (l. to r.) are Lowndes Chairman David M. Lyon '44, E. R. Meadows '26, Ned Ellis '53, James W. Mathews '32, and Dr. William H. Lee '40. Also a leader in Lowndes but not shown is James W. Wible '34. Future Auburn students (l. to r.) are Elbert Lee, David Lyon, Jr., Robert Lee, Bill Lee, Jr., and Ernest Lee.

Final Prospect—J. W. Mathews '32, Lowndes County Agent (center above), takes Development Fund pledge from Stewart Mac Champion '31 of Hayneville to complete his part in the successful Lowndes campaign. Looking on is Mrs. Bryant Traylor, Mr. Mathews' secretary, who helped materially in campaign organization.

Auburn Program May Become Model For Others—

Extension Self-Study Brings Progressive Changes

The Auburn Agricultural Extension Service is in the midst of a comprehensive self-study and evaluation that may make Extension operations in Alabama a model for other states and that can provide the leadership in education necessary to bring phenomenal changes in state farm income. Already the study that began last September has brought significant changes in Extension's method of operation and has resulted in plans that have drawn commendations from

other states and from national Extension leaders.

At stake in this analysis of Extension education and the farmers' needs are hundreds of millions in gross annual income for Alabama. Alabama's farm gross in 1959 was $550 million, a new record. Extension Director E. T. York, Jr., and other Extension economists are confident that Alabama has tremendous opportunities to increase farm income. They predict the 1959 gross can be vastly increased and probably doubled within a decade by wise use of Alabama agricultural resources and by widespread application of the best practices that research and farm experience have discovered.

Translating knowledge of the best practices into practical application through creative education is the logical responsibility of the Extension Service—a responsibility that Auburn Agricultural Extension has fulfilled in the past with outstanding results. However, the rapid pace of revolutionary changes in agricultural production in recent years has led Auburn Extension leaders and workers throughout the state to conclude that under present conditions "programs and procedures appropriate and adequate yesterday are likely to be inappropriate today—and obsolete tomorrow." As a result of this conclusion they began the self-study as the first step towards achieving a flexible plan of operation that will permit a continuously dynamic program—one that will take a farm problem where it occurs and bring the total resources of research and experience to bear upon it.

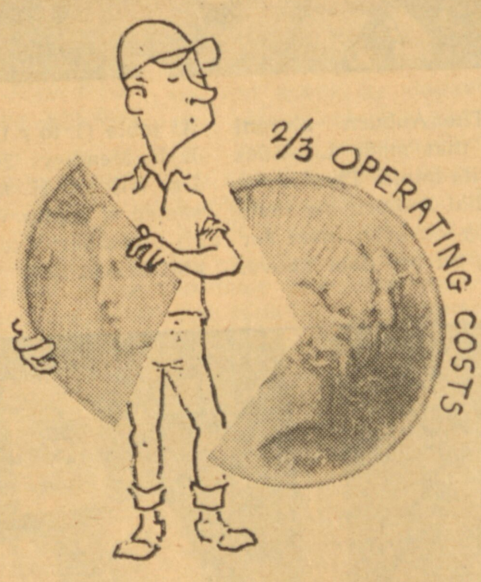
To conduct the self-examination, Extension established an over-all study committee with Dr. Fred Robertson, Assistant Extension Director, as chairman. Under this committee numerous sub-committees of Extension workers are giving every Extension activity a thorough analysis. Assisting in the operation as advisors are many specialists from the Federal Extension Office of the United States Department of Agriculture. Before the study is completed sometime this summer, numerous representatives from Alabama farms, industries, commerce and other agricultural agencies will also be called upon for advice and suggestions.

The self-study began with an examination of internal policies and organization. From this phase of the analysis have come plans that are already being put into effect; from these plans a more-simplified, more-flexible organizational structure is emerging and a comprehensive new program for professional improvement has developed.

Closer Coordination

Revisions in organizational structure provide for closer coordination of related Extension activities. Extension projects have been reduced from forty-odd to only eight. Agricultural subject matter specialists, instead of operating as semi-autonomous leaders in a variety of special areas, will work in one of four groups, organized for the purpose of program planning and coordination.

The aim of these revisions is the preparation of package programs for total farm operations under varying conditions. Such packages developed by specialists from the latest findings of research and practical farm experience will enable county agents to assist farmers more effectively in total planning. They will avoid the danger of encouraging a farmer to enter upon a project, say in beef cattle for example, that on the surface appears lucrative but that is not adaptable to the resources and present operations of the particular farmer. They will enable the farmer to enter new phases of



production in such a way that he can realize maximum income from new and old sources through better practices and through coordination of all farm activities.

The designations of the four specialists groups and the titles of the eight consolidated projects reveal the logic of the new plan. Specialists will work in one of these four groups — Animal Sciences, Plant Sciences, Social Sciences, or Physical Sciences. Consolidated projects are (1) Extension Administration, (2) Extension Information, (3) Agricultural Production, Management, and Natural Resource Development, (4) Marketing and Utilization or Agricultural Products, (5) Extension Home Economics, (6) 4-H and Other Extension Youth Work, (7) Community and Public Affairs, and (8) Organization and Supervision of County Extension Operations.

Extension leaders in other states have reviewed Auburn's plans and have offered many congratulatory comments; among them the following came from Georgia: "I wish to congratulate you on the future thinking and planning in which you are engaged in the organization of your Agricultural Extension Service for the great responsibilities which it has. As I view your plans, you are making one of the most fundamental steps towards coordination and effective use of specialists' time of any I have observed. During my many years of Extension service I've thought this was one of its biggest problems, and it's good to see you bring together an organization for solving it."

Greater Efficiency

Obviously, the simplifying of operations not only provides for more effective Extension education but also for more efficient operation. Another change designed to make use of personnel and funds with maximum efficiency is the creation of a Management Service Office in which all of the various administrative services of the State Office have been consolidated. This new consolidated office is now in operation with H. Earle Williams, veteran Auburn Extension employee, in charge of it.

Better Preparation

Revolutionary changes in technology, in agricultural marketing, in patterns of agricultural production, and in the relationship of the farmer to associated business men makes continuous professional improvement necessary for the Extension worker. Out of the self-study has come a plan for professional improvement that affords the opportunity and encourages the Extension worker to follow a pattern of continuing education to stay abreast of the complex developments in agriculture and his profession.

The professional improvement program centers around an imaginative study leave policy that permits each Extension Service employee to accrue 20 days of study leave each year. Accrued study leave may be used to pursue work in agriculture, home economics, or closely related fields; to attend regional Extension short courses —non-credit special courses held regularly at various colleges and universities in the South and other regions; to attend meetings of relevant professional associations, societies, or organizations; or to pursue organized study involving field trips, tours, or visits to other areas to observe new methods, research, or innovations in agriculture or home economics.

Maximum accrued study leave periods are set in such a way that a worker may be away from work long enough to pursue an intelligent, effective program leading to a graduate degree; at the same time the periods are limited enough to prevent disruption of orderly procedure in any Extension educational activity.

Extension leaders planned the study leave policy to fit the needs of its education program and thus those of the people of Alabama, not simply to serve as an added benefit for Extension workers. In the policy statement sent to Extension employees, Director York said, "No obligation for granting study leave referred to herein is either stated or implied." He then noted that in all cases the granting of study leave will be solely at the discretion of the Director's office and based upon several factors including (a) needs of the Extension program, (b) intentions of the employee to continue in service with the Agricultural Extension Service of Auburn University, (c) evidence of satisfactory performance in previous work, and (d) the availability of funds.

L. M. Schruben, Assistant Administrator of the Federal Extension Service recently made this comment on Auburn Extension's new professional improvement program: "I knew of no other state having a policy so forward looking as the one you in Alabama have developed. Congratulations to you, your staff, and to Auburn University."

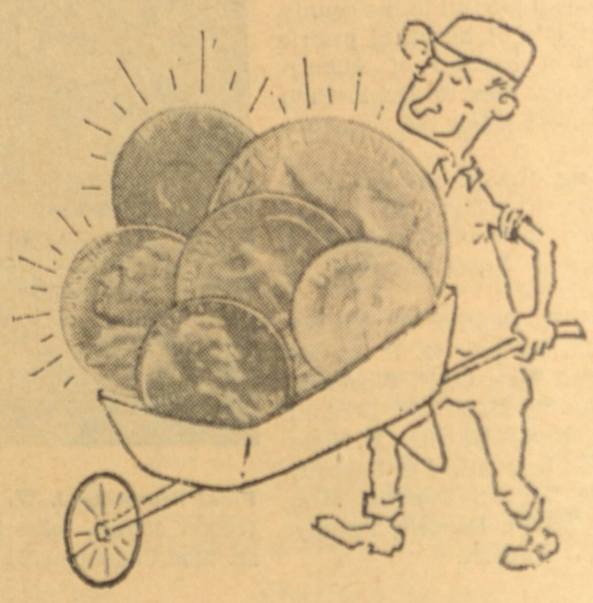
More Than Farm Income

Extension's self-study encompasses more than the simple goal of increasing the gross farm income of Alabama. Also included in the analysis are home demonstration and 4-H Club activities, the former aimed at developing a better home life and the latter at developing leadership programs for youth.

Beyond these immediate goals is that of helping build a stronger state economy for all Alabamians and behind this goal is the explicit recognition that agricultural changes have made farming an integral part of Alabama's total industry and commerce. Today approximately two-thirds of the average gross farm income goes to pay operating costs; whereas 20 years ago less than one-half was so spent. Upon the farmer's purchasing power depends the prosperity of many Alabama business men — gasoline, fertilizer, feed, seed, and machinery dealers. Furthermore, many new Alabama industries have sprung up and flourished as processors of state farm products. These industries depend upon farm productivity for raw materials.

A recent study has shown that the various commercial concerns supplying farmers with off-farm production goods plus those involved with processing, transporting, handling and selling farm commodities create a volume of business more than four times greater than the estimated value of farm sales. In other words by producing $500 million worth of farm commodities, Alabama farmers created more than $2 billion worth of off-farm business.

Thus as the Extension Service girds itself to provide leadership for the possible doubling of Alabama's gross farm income a potential increase of billions in the State's income from agribusiness is actually at stake.



Dr. Paul Irvine Predicts—

Enrollment To Reach 14,150 By 1970

Auburn's annual fall enrollment will increase from the present 8,547 to 14,150 by 1970, according to Dr. Paul Irvine, Director of the Education Interpretation Service of the University. To meet its greater educational responsibilities, the University will have to provide more faculty, more classrooms and laboratories, plus living quarters for an average of 510 additional students each year.

Why will Auburn University's enrollment increase so dramatically? Where will these young men and women come from? The Education Interpretation Service bases its prediction on population figures: more babies were born between 1942 and 1953; more boys and girls are graduating from high school each year; of those who graduate, larger proportions are attending college.

The GI War Babies will reach Auburn in the fall of 1961, when the enrollment will make a record jump of 985 students. This expected increase will call for immediate adjustments on the campus. Another big increase is expected in the fall of 1965, when the second GI Baby Bulge of 1946 will be starting college careers.

Each year more students graduate from high school. In 1940, only 9,000 graduated. Today the number is over 23,000; by 1965 it will be 30,000.

Of these high school graduates an increasing proportion are entering college. In 1930 it was 20 per cent; today 33 per cent of high school graduates go to college. This year more than one-third of the 23,000 high school graduates are attending college, and there will be more each year. These figures affect all colleges.

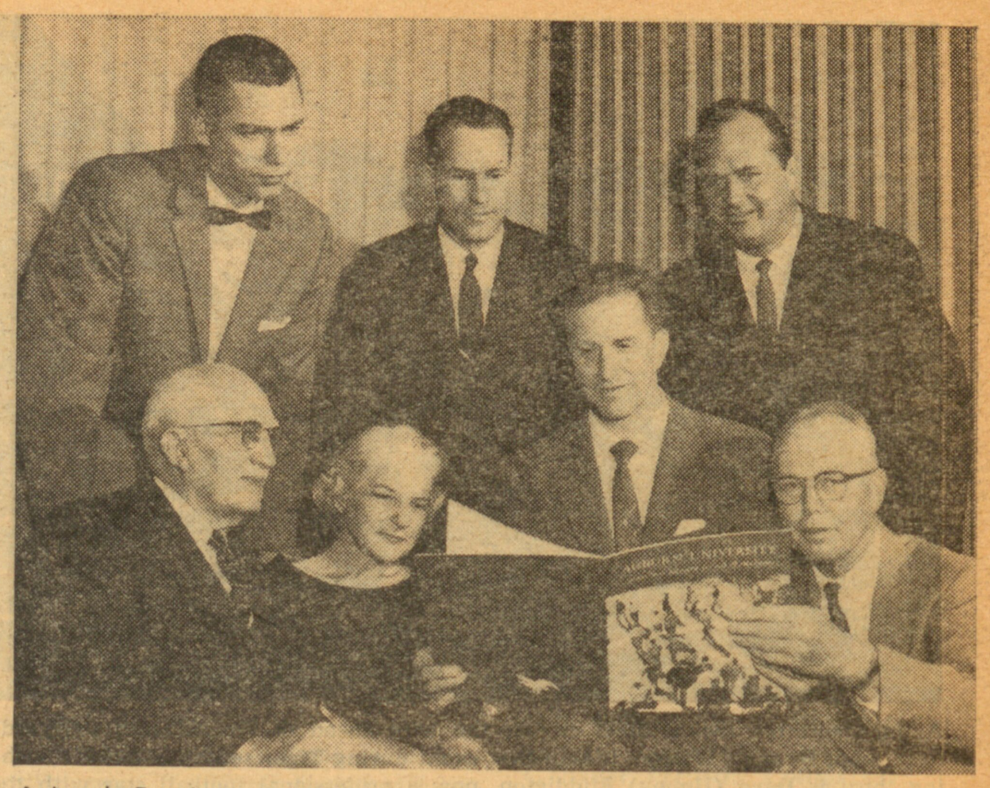
Alabama's rising generation will add to Auburn University's educational responsibility. This generation, university-trained, will raise the income level, as well as the cultural level of Alabama's people.

The column at the right below indicates the total number of different students who will be registered during the college year. Many of these will be on the campus for three quarters. And some—like public school teachers—attend only in the summer. However, an increasing number—including graduate students—continue their studies four quarters a year.

Thus, in a year the "net" total number of students enrolled, 11,156 this year, is expected to increase about 720 per year to a total of 18,395 in the year 1970-71.

PREDICTED ENROLLMENTS—1960-1970: AUBURN UNIVERSITY

	Fall Enrollment	Annual Increase	Total Net Enrollment
1959-60	8,547		11,156
1960-1	9,020	473	11,726
1961-2	10,035	985	13,045
1962-3	10,300	265	13,390
1963-4	10,570	270	13,741
1964-5	11,050	480	14,365
1965-6	11,800	750	15,340
1966-7	12,400	600	16,120
1967-8	13,050	650	16,965
1968-9	13,600	550	17,680
1969-70	13,800	200	17,940
1970-1	14,150(65%)	350	18,395



Auburn's Development Fund drive will get a boost from a campaign among university faculty and staff members, who are furnishing their own volunteer campaign staff and making their own plans. Dr. John Deloney (not shown) is chairman for the faculty group. Volunteer assistants include (seated from left) E. W. Burkhardt, Mrs. J. E. Land, James E. Foy, George Hargreaves; (standing) Grady Cox, Tom Cope, and Hal Herring.

Other campus volunteers working with Dr. John Deloney in preparation for a Development Fund campaign among university staff and faculty members are shown above making plans for a kick-off meeting on April 26. They are (seated from left) Mrs. R. G. Arnold, J. E. Land, Otis Russell, David N. Bottoms: (standing) Richard Crawford and L. P. Burton.

Development Contributors Listed

The following list represents subscriptions of $1,000 and above to the Auburn University Development Program by alumni, corporations, and friends of Auburn University. Donors listed contributed prior to April 8. Additional names of $1,000 and above subscribers will be carried in subsequent editions of **Alumnews.**

Alabama By-Products Corporation, The Alabama National Bank of Montgomery, Alabama Power Company, American Cast Iron Pipe Company, Auburn Grille.

Bagby Elevator & Electric Company, Robert C. (Red) Bamberg, '40, A. A. Biggio '26, Birmingham Realty Company, Birmingham Trust National Bank, Bodine, Bryson and Rolling, W. I. Bowman.

Dr. R. Gilmer Brownfield, '29, Buchanan Contracting Company, Inc., Bulletin Publishing Company, Burford Toothaker Tractor Company, Burns, Kirkley and Williams Construction Co., Harry M. Burns '40.

Edmond W. Camp, '35, Redus Collier, '27, Charles H. Colvin, '26, Marshall J. Conner, '40, J. Noble Crump, '30, Jack H. Denton, '52.

George A. Dozier, '29, Dr. Ralph B. Draughon, '22, The First National Bank of Birmingham, The First National Bank of Montgomery, Fontaine Truck Equipment Company, Inc., W. Jesse Forrester, '23.

J. W. Goodwin, '27, Dr. W. E. Goodwin, '35, Hall Brothers Dairy, Bill Ham Dry Cleaners, Harbert Construction Corporation, Everett O. Harwell, '45.

Frank H. Hawthorne, '46, T. F. Hobart, '27, Robert H. Hodgson, Jr., '47, Holiday Inn Hotel, Home Building and Supply Company, Inc., Dean M. C. Huntley.

Mr. and Mrs. W. F. Joseph, Hugh Kaul, Tom B. Kirkland, '33, Liberty National Life Insurance Company, Edward L. Lowder, '34, Bryan B. Marsh, '23, Thomas W. Martin, McWane Cast Iron Pipe Company, William B. Moore, Jr., '42, H. D. Mosley, '31, John W. Overton, '35, Paterson's Rosemont Gardens, Inc., Pearson, Humphries & Jones, Architects, Pearson, Tittle & Narrows, Architects, Perry B. Pepper, Jr., '32, Protective Life Insurance Company, Fred W. Renneker, Jr., '31, Frank P. Samford, Sr., '14, Mrs. Frank P. Samford, Sr., Joseph B. Sarver, Jr., '37, Sewell Manufacturing Company, Dr. Roy B. Sewell, '22, James F. Shackelford, '29, Smith's Pride, Inc.

Charles M. Smith, '24, Moreland G. Smith, '28, Southern Amiesite Asphalt Company, E. L. Spencer Lumber Company, John C. Spencer, '47, R. J. Stockham.

Talladega National Bank, William K. Thames, J. Mills Thornton, Jr., '37, James W. Thornton, '22, Tractor and Equipment Company, Inc., John M. Trotman, '49, Paul S. Turner, '27.

Union Bank and Trust Company, Vulcan Equipment and Supply Co., Lamar M. Ware, Sr., Adolph Weil, '06, Mr. and Mrs. Leonel Weil, West Point Foundation, Inc., J. Streeter Wiatt, '31, Wimberly and Thomas Hardware Company, Inc., W. David Wittel, '39, William B. Yarbrough, '31.

'Auburn Engineer' Chuckles

Guest: "Why does your dog keep watching me like that?"

Host: "I guess it's because you've got the plate he usually eats from."

Auburn Doing Well In Spring Sports

Auburn's spring sports schedule began Feb. 20 with the Coliseum Indoor Relays in Montgomery, where shot putter Richard Crane and the freshman relay teams won handily.

The track team also showed well in the Florida Relays in Gainesville, March 26, although there were not enough men available to give Coach Wilbur Hutsell much depth.

Crane threw the discus 171-4½, which is half an inch farther than the SEC record held by Auburn's Jim Dillion. He had a throw of over 55 feet in the shot cancelled by a scratch, and failed to defend his title in that event.

The freshman mile relay team won and set a new record of 3:23.1. Members were Hal Buckalew, Gary Ray, Ken Winter and Jerry Smith. This same team, with Sid Bufkin replacing Ray, tied Alabama for the top spot in the sprint medley relay.

Auburn's baseball team opened its season with an 11-4 victory over strong FSU as Alan Koch pitched outstanding ball and sophomore Bill Breakfield slammed a home run.

Next two games in Tallahassee went to the Seminoles, however, and the only bright spot for the Tigers were hot hitting by sophomores Breakfield and Larry Nichols and a tremendous home run clout by Koch.

Coach Erskine Russell's team next ventured to Atlanta to meet Georgia Tech. Koch pitched four-hit ball and struck out 11 only to lose, 3-2, opening day. Nichols hit a home run and a double.

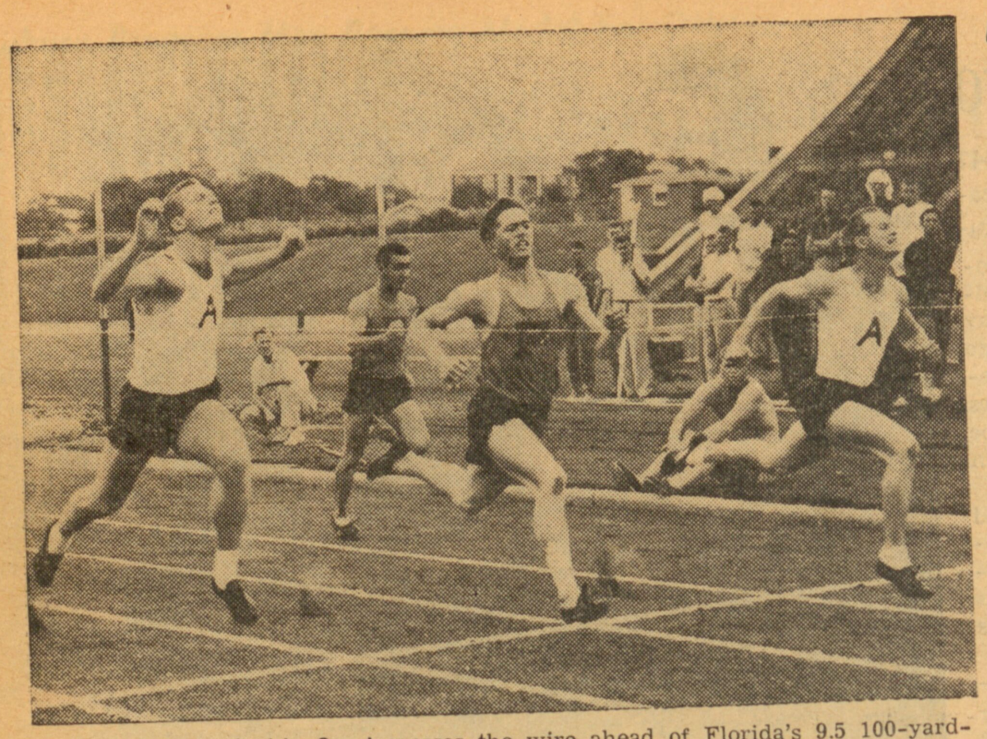
Sophomore Jim Boyd came up with a surprisingly strong pitching performance the following afternoon as Auburn trimmed the Jackets, 5-4. Nichols was 2 for 4 and Breakfield's double was a key blow.

Returning to Auburn, the baseball variety of Tigers came from behind time and again to finally knock off powerful Alabama, 11-10. Breakfield's double with the bases loaded was a major blow, but it was singles which kept the Tigers in the game.

Harry Daniel came up with four hits in five trips and scored a pair of runs. Second baseman Jim Douglas was two for three, scoring a pair and driving in three more.

Coach Sonny Dragoin's golf team opened its season with a 20½-6½ win over Chattanooga as Bryant Harvard's 71 took the medal at Columbus Country Club. That same day, March 31, Coach Luther Young's tennis team opened the season with a 9-0 blanking of Mercer.

The golf team lost its next match to Alabama, but rebounded to defeat Howard College in Birmingham. And the tennis team was on the short end of an 8-1 count with Howard on April 6, then bounced back to beat Birmingham-Southern the next day, 5-4.



Auburn sprinter Jackie Creel crosses the wire ahead of Florida's 9.5 100-yard-dash man, Bumper Watson, to win that event during Tiger season of 1954. Finishing third is Dave (Hoppy) Middleton, now a professional football star with the Detroit Lions . . . and also an M.D.

For Auburn Sports—

A Great Era—Let The Record Speak

By NORM CARLSON

Auburn's outstanding all-around athletic program has produced more conference champions in the four major sports in the past six years than has any other school in the history of the SEC. The climbing Tigers have won at least one championship in each of the four—football, basketball, baseball and track—during this six year period.

Starting with the 1955 track championship (actually Coach Wilbur Hutsell's team also won the 1954 SEC crown), Auburn moved on the football throne room in 1957.

Coach Joe Connally's first baseball team won the SEC championship in the spring of 1958. This was the team which featured the great pitching of sophomores Red Roberts and Alan Koch.

And, of course, "Snow White and The Seven Dwarfs," who sometimes went under the name of Coach Joel Eaves and the 1960 Auburn basketball team, climaxed a brilliant stretch drive to win the school's first SEC title in that sport.

This six-year period (1955-1960) also saw the continuing dominance of Coach Arnold (Swede) Umbach's wrestling team on the southern scene. His grapplers won the SEIWA title every year during this period, stretching their string to 14 straight Southeastern wrestling championships.

With any championship teams there will be the outstanding individuals who earned rankings from the press. Auburn has had its share of these, too.

There was Jackie Creel with the '54 track squad. A boy who came to Auburn to play football and wound up being the school's finest dashman, Creel holds the all-time Auburn record in the 220 (:20.8) and shares the 100-yard-dash mark of :9.7.

Also with the track team was big Jim Dillion, another football player, who won the NCAA discus championship and competed in the Olympic games. His 180-8 discus heave in 1954 is still an Auburn record.

That 1957 football team, which won Auburn's first SEC title in the sport and added the National Championship to boot, was a well-rounded outfit which included Jimmy (Big Red) Phillips, who made all-America that year.

The '58 baseball team had its Roberts and Koch on the hill, combining for 14 victories between them. It also had the likes of all-SEC outfielder Rex Frederick, and a big bat from Jackie Burkett, who made his name as an all-America center.

Leading the Seven Dwarfs to a basketball crown this season was the unanimous all-SEC guard Henry (Po' Devil) Hart, certainly one of the most exciting performers in the school's history.

So it has been an interesting and fruitful past six years. As mentioned before, no other school has done as well in the four major sports in this short a period.

It's a great tribute to the work done by Athletic Director Jeff Beard. And somewhere in the background at the Auburn Field House, you just might hear a voice say:

"You ain't seen nothing yet."

Auburn Coaching Veteran

Coach Shot Senn is the only member of the Auburn staff that has worked under three different coaches — Carl Voyles, Earl Brown and Ralph Jordan. Senn was end coach under Voyles in the 1945-46 seasons, coached at Phillips High in Birmingham for a year before returning as end coach under Brown in 1948, and Shot remained in that capacity in the present reign until Jordan promoted him to line coach in 1950.

* * *

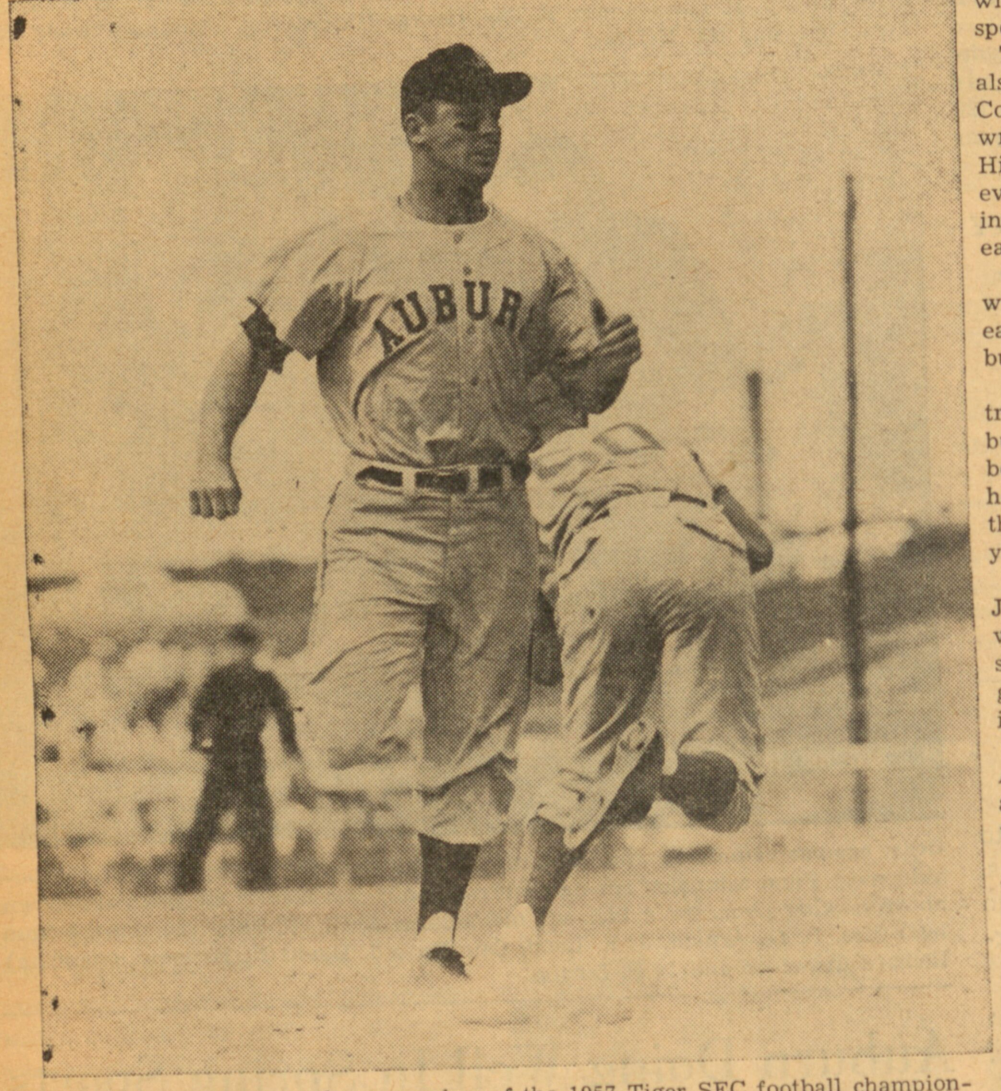
Auburn All-SEC Sophs

Three Auburn players under Coach Ralph Jordan have won first team All-SEC honors during their sophomore season. In 1953, both end Jim Pyburn and Tackle Frank D'Agostino turned the trick, while End Jimmy Phillips did it in 1955.

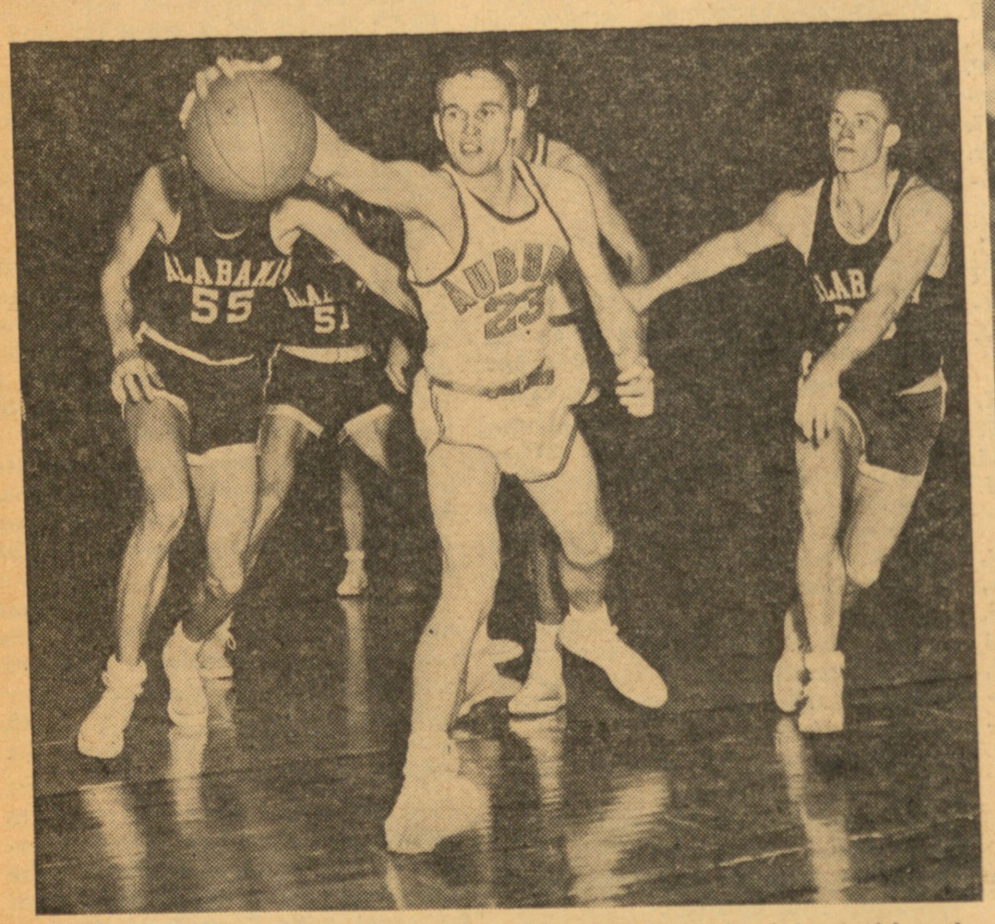
* * *

Auburn's Catching Coach

Auburn End Coach Gene Lorendo was the SEC's leading pass receiver in 1949 with 28 receptions as a University of Georgia senior.



Auburn's Jimmy Laster, also a member of the 1957 Tiger SEC football championship team, beats out an infield hit against Florida for Coach Joe Connally's '58 baseball champs.



Auburn Center Jimmy Fibbe (23) reaches out to save a ball headed out-of-bounds as three Alabama players view the play in the game which gave the SEC title to the Tigers in 1960.

Auburn's great halfback from Birmingham, Tommy Lorino (25), breaks into the clear against Georgia Tech in game won by Tigers, 3-0, on the way to their first SEC title in 1957. End Mike Simmons (80) runs interference for Lorino.

Auburn Alumnalities

1899-1910

Fred R. Daly '99 dropped a note recently to inform us that Judge **Thomas W. Wert** '99 had been confined to St. Vincent Hospital in Birmingham. We have received no further word on Judge Wert's condition.

G. B. Hill '03 of Sylacauga Rt. 1 recently switched from dairying to beef cattle after 42 years in the dairy business. Mr. Hill, a civil engineering graduate, won a master farmer award in 1953. He is a member of the Alabama Cattlemen's Association, the Farm Bureau, chairman of the Talladega County ASC committee, and a member of the board of directors of the County Growers Association.

Stephen Radford Batson '08 of Birmingham has qualified as candidate for the position of Alabama delegate at-large to the Democratic National Convention.

Robert B. Janney, Sr., '10 of Montgomery is a member of the executive committee of the Alabama Committee for the Aged, a group dedicated to the welfare of the state's elderly population.

1913-1922

William D. Barton '13 retired on Dec. 31, 1959, as general manager of the Tennessee Corporation, East Point, Ga., and is returning to Auburn, where he is building a new home at 157 Cary Drive, N.

William W. Bagley '13 is, we regret to report, now an invalid. He is residing in East Point, Ga.

Thomas O. Robertson '15 has retired from the U. S. Coast Guard and is living in Washington, D. C.

Mafus Bird '20 has moved from Demopolis to Epes. He is already making plans to attend his class reunion on Nov. 11-12 this fall.

1922-1924

Wilton B. Duncan '22 is associated with Vulcan Materials Company in Panama City, Fla.

O. P. Lee, '23, Opelika attorney, recently served as chairman of a subcommittee of the Alabama Democratic Executive Committee appointed to determine the legality and feasibility of primaries for municipal elections in Auburn.

Mrs. **Lewis Pick** (Alice Cary '24) of Auburn is chairman of the 1960 Easter Seal campaign in Lee County.

Julian Brown '24, executive secretary of the Alabama State Soil Conservation Committee, was guest speaker for the state's vocational agriculture teachers at AEA in Birmingham this year. His subject was "Conservation and Wise Use of Our Agricultural Resources."

Henry Sweet '24 of Bessemer has qualified as a candidate for presidential elector for Alabama.

1925

Walter L. Randolph of Montgomery, president of the Alabama Farm Bureau Federation, has been elected vice-president of a new American Farm Bureau Federation affiliate, the American Agricultural Marketing Association.

Dan Boyd of Roanoke is seeking the position of circuit judge for place No. 2 in the Alabama Fifth Judicial Circuit.

H. Frank Hentschel is with General Electric Co. in Schenectady, N.Y., having been transferred there from Philadelphia, Pa.

Pelham J. Anderson has moved from Montgomery to Panama City, Fla.

1927-1929

Porter A. Stephens '28, will complete this month a two-year tour with the U. S. Operation Mission-Korea and will return to Washington for final briefing with the International Cooperation Administration. Later this summer he plans to retire from Government Service and will come back to his farm in South Alabama.

V. C. Helms '29 of Auburn is unopposed as candidate for re-election as Lee County superintendent of education.

John L. Bull '29 , has retired as a teacher of vocational agriculture at Bear Creek after 25 years of service. According to reports, he has not, however, stopped making innovations in farm methods. His latest development on his farm is a new rapid method of planting coastal Bermuda.

J. Ponder Livingston '29, was the speaker at a recent Twentieth Century Study Club of Eutaw meeting held in observance of the 50th anniversary of Boy Scouts of America. He has been active in Scouting work in Eutaw for 14 years.

James D. Caldwell '29 is with the School of Public Health, University of Minnesota, Minneapolis, Minn.

New Addresses: T. Jack Stone '27, Atlanta, Ga.; Col. **Harry L. Fox,** Atlanta, Ga.; Dr. **James Fargason** '29, Picayune, Miss.

1930-1931

D. N. Bottoms '30 Auburn professor of agricultural education, attended the President's Conference on Occupational Safety in Washington, D. C. in March.

Samuel C. Nethery '30, has retired from the Army after 30 years service. He held the rank of lieutenant colonel. He has now returned as a civil service employee to the position that he held before he retired as purchasing and contract officer at Ft. Carson, Colo.

Col. **Hampton Lee Green** '31 has retired from service and is living in Selma.

New Address: Mrs. **Berta Wood Waldron,** Monticello, Fla.

1932

W. G. Little, mayor of Linden, has been selected "Man of the Year" by the Jaycees of Linden. At an honor banquet, he was described as "a man who spends more time working for Linden than for himself."

Ruth Parkman, restaurant training specialist for the Louisiana State Department of Education, was recently featured in the Baton Rouge **Morning Advocate** along with the home that she designed and had built. Miss Parkman, a career woman that has attained independent success in the business world, decided to build her home in order that she could enjoy the art of homemaking along with her career.

Ralph Jordan has been selected to represent District 4 on the Coaches Advisory Committee on Football Rules. The Committee is a segment of the American Football Coaches Association. Coach Jordan represents Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, Tennessee, and South Carolina on the committee.

Lt. Col. **Otis S. Moreman** has been assigned to Ft. Sam Houston, Tex., as quartermaster. Col. Moreman recently returned from an assignment as commanding officer of U. S. Army Task Group 7.2, Marshall Islands, Pacific.

George Robinson operates a 2,000-acre dairy and beef cattle farm at Stroud in Chambers County. Associated with him in the operation is his son, Jim, who is also an Auburn alumnus.

1933-1935

Col. **Russell Porter Grant** '33 is with the U. S. Army Advisory Group for Mississippi and is stationed in Jackson.

Maj. **Evelyn G. Summers** '34 is stationed at Martin Army Hospital at Ft. Benning and resides in Columbus, Ga.

James McLester Van Hoose, Jr., '35 is the new manager of the International Paper Company plant in Natchez, Miss. He and his wife have a daughter that is graduating from high school this year.

Milligan Earnest '35 of Auburn is seeking re-election as Lee County Commissioner from District 1.

New Addresses: M-Sgt. **Edward A. Dantzler** '33, Seale; **Wallace C. Breithaupt,** '33, Moline, Ill.; **John M. S. Thomas,** '34, Glenwood, Ga.

1936

Eleanor Boyd Whitelaw has been elected president of the Chattahoochee Valley Chapter of American Women in Radio and Television. She recently completed six years with WRBL in Columbus, Ga., for which she is now news editor for radio and television. During five years as an interviewer on a daily radio program, she has interviewed more than 1,200 people on a variety of subjects.

A. Perry Gordy has entered a new business, the Georgia Mutual Credit Association, in Columbus, Ga.

Col. **James P. Hines** has been assigned as executive officer of **MOAMA** at Brookley Field in Mobile. Col. Hines has 23 years in service of which seven have been spent overseas.

Delilah F. Swanner is home demonstration agent for Macon County, Ga., with offices in Oglethorpe.

New Address: Mrs. **Susie Kearley Jackson,** Pensacola, Fla.

1937

Terry Saxton Mosley is General Manager of Continental Shoe Manufacturers and is living in Bronxville, N. Y.

Dr. **D. P. Culp,** president of Livingston State College, has been elected president of the Alabama College Administrators Association.

Dr. **Charles Roberts,** Auburn University animal pathologist, has been appointed on a special Auburn University research committee to cooperate in designing and operating the Atomedics Research Center in Montgomery.

New Addresses: Josiah S. Daniel, Summit, Miss.; **Joseph T. Bohannon,** Grantville, Ga.

1938

Dr. **D. Dallas Ruch,** DVM, of Warminster, Pa., has accepted an assignment to teach animal diseases to a senior class at the National Agricultural College at Doylestown, Pa.

Dr. **Clayton Stephens** is now practicing veterinary medicine in Verona, Miss.

Dr. **Rufus O. Moore, Jr.,** owns and operates Moore's Veterinary Hospital in Tuscaloosa.

Dr. **Thomas E. Bonds** is a U. S. veterinary advisor to Viet-Nam and is living in Saigon.

Lt. Col. **Marion R. Panell** of Ft. Bliss, Tex., made a trip to Mexico City during the latter part of March. He is scheduled to take a new Nike Hercules (SAM) battalion to Salina, Kans., on July 1.

New Addresses: L. Senaca Powell, Kailua, Hawaii; Lt. Col. **Charles E. Lawrence,** Ft. Rucker.

1939

Allen Seaman Babcock is an architect in West Palm Beach, Fla.

T. A. (Bo) Russell is manager of the Massachusetts Mutual Life Insurance Company's district group office in Birmingham. The office serves Alabama and Mississippi.

Sam F. Teague

Sam F. Teague has been appointed to the newly-created position of general manager of sales for Rayonier, Inc., of New York City. Teague assumes his new position after 15 years as a sales and marketing executive with the Monsanto Chemical Co. He and his wife, Frances Middleton '39, have two children, Russell and Melanie.

Dr. **Howard Strong** has been appointed assistant to the dean of engineering in charge of pre-engineering for Auburn University.

New Addresses: Capt. **Edward M. Jordan,** Colorado Springs, Colo.; **Louis J. Vogel, Jr.,** Ft. Walton Beach, Fla.

REDUS COLLIER . . . Chairman

Collier Heads Program In Tennessee Valley

Redus Collier '27, prominent insurance executive and member of the Auburn Board of Trustees, has joined Development Program leaders as chairman for the Tennessee Valley Area in North Alabama.

A resident of Decatur, Mr. Collier is coordinating plans and recruiting other volunteers for the Development campaign in numerous populous North Alabama cities and towns.

Other prominent alumni already associated with him as local chairmen and special committee heads include: in Decatur Claude I. Carter '41, corporate gifts chairman, and Ed Price '27, personal solicitations chairman; Winston S. Garth '40 of Athens, chairman for Limestone County; Samuel P. McClendon '40 of Moulton, chairman for Lawrence County.

As *The Alumnews* goes to press other volunteers are being enlisted in these localities and other cities and towns in the area.

Is Marriage Compatible?

(Continued from page 4)

This kind of discrimination would remove the usual dangers of parent-supported, wife-supported, and too-much-work-supported student marriages. Married students, male and female, making full use of their opportunities as undergraduates, would have the right to accept from society this extra time to become more intellectually competent people. Neither partner would be so tied to a part-time job that relationships with other students would be impaired. By the demands of high scholarship, both would be assured of continued growth that comes from association with other high-caliber students as well as with each other.

But even this solution should be approached with caution. Recent psychological studies, especially those of Piaget, have shown how essential and precious is the intellectual development of the early post-pubertal years. It may be that any domesticity takes the edge off the eager, flaming curiosity on which we must depend for the great steps that Man must take, and take quickly, if he and all living things are to continue on this earth.

1940-1941

Dr. **Moore J. Burns** '40, Auburn associate professor of physiology and pharmacology, has been appointed to a special Auburn University research committee to cooperate in designing the Atomedics Research Center in Montgomery.

Dr. **Walter Virgil Petty** '41 practices veterinary medicine at the Northside Animal Hospital in Chamblee, Ga.

New Addresses: Donald B. Wendling '40, Park Ridge, Ill.; Dr. **James K. Taylor** '40, West Palm Beach, Fla.; **Edward Davis,** '41, Tuscaloosa; **John T. Morgan** '41, Ft. Walton Beach, Fla.; Dr. and Mrs.

(Continued on page 10)

Familiar Faces—Auburn residents and business men came out 90 strong to initiate the Development Fund Drive at a kick-off meeting here. Among boosters were many figures well-known to alumni for their efforts to build the University and the Loveliest Village. Among the foremost are those shown above. They are, seated, left to right: Dr. Zebulon Judd, L. M. Ware, J. D. Samford, and E. L. Spencer, Sr. Standing, left to right: A. Meadows, J. C. Grimes, W. L. Long, M. L. Beck, Dr. B. F. Thomas Sr., and E. W. Camp.

In Memoriam—1888 Through 1948

Samuel Taylor Oliver '88 died at his home in San Antonio, Tex., on Feb. 29, 1960, after an extended illness. He was 92. He was a former resident of Montgomery but had lived in San Antonio for the past 45 years.

* * *

Percy L. Dryer '89, retired civil engineer, died at his home in the Town House in Birmingham on March 17 after a long illness. He was 90.

Mr. Dryer had lived in Birmingham for 54 years and for 57 years was an engineer for the Alabama Fuel & Iron Corp.

Survivors include his wife, Mrs. Martha LeNoir Dryer; four daughters, Mrs. Fayette Cloud of Lilesville, N. C., Mrs. T. B. Thackston of Spartanburg, S. C., and Miss Della Dryer and Mrs. Dan Smith, both of Birmingham; and seven grandchildren and nine great-grandchildren.

* * *

Thornton Albert Ward, '04, died at a hospital in Florida on March 12, 1960. While at Auburn he was a member of the varsity football team for four years and was also a member of the track team. He will be remembered as the winner of the one mile race for all four years, the half mile race for the three years he ran it, and also as a winner in the one-quarter mile and the 220-yard hurdles.

He served as Superintendent of Cotton Compresses in Dothan, Alabama, Brunswick, Atlanta and Savannah, Ga., for 42 years before retiring. During the last few years he lived in Florida.

He was 77 years old. His wife, the former Nellie Barnes of Opelika, and one son, Thornton A. Ward, Jr., died before him. His brother, William F. Ward '04, of Avon Park, Florida, survives him.

* * *

Robert Stewart McWhorter '07, a lifelong resident of Hayneville, died in a Montgomery Hospital on March 5, 1960, after a brief illness. He was 75.

Survivors include two brothers, W. B. McWhorter of Hayneville and A. F. McWhorter of St. Petersburg, Fla.; and two sisters, Mrs. W. P. Champion and Mrs. Maurice Marlette both of Hayneville.

* * *

William E. Shivers '13 of Pensacola, Fla., died on Feb. 19, 1960. Mr. Shivers was born on May 15, 1892, in Gallion. He had been living in Pensacola for the past seven years.

He is survived by a son, Lyman T. Shivers '50, Pensacola; a daughter, Mrs. A. T. Row, Jr., Philadelphia, Pa.; and two sisters, Mrs. Lawrence E. Wright, Orlando, Fla., and Mrs. Marshall Stewart, of Lewiston, N.Y.

* * *

Frank James Inge, Jr., '15, well-known Greene County rancher, died on his farm near Eutaw of an apparent heart attack on March 17, 1960. He was 67.

Survivors include his widow, Mrs. Augusta Harwood Inge and a son, Howard Inge.

* * *

Fred H. Haynie '16 of Orlando, Fla., died on Feb. 19, 1960. Survivors include the widow, Mrs. Mattie Lou Haynie.

* * *

James A. Chappell '17 died on Nov. 1, 1959, according to information from an unidentified informant at his former address in Birmingham.

* * *

Benjamin W. West '18 of Tampa, Fla. died in a veterans hospital on Nov. 23, 1959. Death followed pneumonia that set in while he was suffering from the effects of a burst cranial blood vessel.

Survivors include his widow, Mrs. Benjamin W. West of Tampa.

* * *

Charles R. Barksdale, Jr., '20, of Lansing, Mich., died on Feb. 2, 1959, of a heart attack. Death came in Union Springs where he was attending the funeral of his mother, Mrs. C. R. Barksdale, Sr. He had first suffered a congestive heart failure on July 2, 1958, but had survived that attack with apparent recovery so that his death occurred unexpectedly.

Survivors include the widow, Mrs. C. R. Barkskdale, Jr., of Lansing, Mich.

* * *

J. Earl Hooker '23 died on Sept. 29, 1959, at the age of 70. A resident of Winfield he owned and operated a certified tree farm in Fayette County and was a retired teacher of war veterans.

Survivors include his widow, Mrs. Nettie McCleskey Hooker '30, a son, a daughter, and five grandchildren.

* * *

Robert L. Dowling '27 of Ozark died on March 19, 1960. Survivors include four sisters, Miss Graymore Dowling and Mrs. Fred E. Ensley of Ozark, Mrs. Wilma Palmer of Jackson, and Mrs. Kirk Enzor of East Point, Ga.

* * *

S. H. Phillips '28 of Lexington, N. C., is deceased, according to information from the postmaster of that city.

* * *

William Joseph Horsley '28, of Cedar Grove, N. J., has been dead since Aug., 1958. He is survived by his widow.

* * *

Edward Stewart Coe '29, died at his home in Selma on March 9, 1960, as the result of a heart attack. He had suffered from a heart condition for several years but his death came unexpectedly, He was 54.

Before his retirement because of ill health he was associated with an antique reproductions establishment, specializing in hand-crafted work. Commenting on his death, **The Selma Times Journal** said that he was "gifted in equal measure as an artist and an artisan."

Survivors include the widow, Mrs. Katheryn Morrison Coe, and a daughter, Margaret Coe, '59; a brother, Richard B. Coe of New York City; and his father, Richard Kent Coe of Selma.

* * *

Robert Seale Payne '41, widely-known South Alabama timberman, died on Feb. 24, 1960, in Monroeville after a brief illness. Before moving to Monroeville two years ago, he had been engaged in business in Montgomery and Notasulga.

Survivors include his widow, Mrs. Miriam Underwood Payne, and three sons—Robert Rex, Weldon Rushing, and William Sellers Payne, all of Monroeville.

* * *

Dr. **Thomas E. Head, Jr.,** '43, district veterinarian for the Agricultural Research Service and resident of Hammond, La., was killed when his car collided with a truck in Denham Springs, La., on March 15, 1960.

Before going with the agricutural research service five years ago, Dr. Head practiced veterinary medicine in Opp.

Survivors include his widow, Mrs. Mary Lee Stone Head '45; a daughter, Sharon; two sons, Tom, III, and Lee Head; and his mother, Mrs. T. E. Head, Sr., of Andalusia.

* * *

Dr. **James C. Powell, Jr.,** '46 of Savannah, Ga., died on Sept. 11, 1959.

* * *

Lawson W. L. White, Jr., '48 and '50, is deceased according to information from his father, Lawson W. L. White, Sr., of Huntsville.

ALUMNALITIES

(Continued from page 9)

Cilfford L. Gross '41 (Mildred Davidson '36), Bel Air, Md.; Mrs. **Anita Barker McCalley,** Schenectady, N.Y.

1942

Dr. **Wilford S. Bailey,** Auburn head professor of pathology and parasitology, is an ex-officio member of a special Auburn University research committee established to cooperate in designing and operating the Atomedics Research Center in Montgomery.

Henry Orr, associate horticulturist of the Auburn Agricultural Experiment Station, has been elected president of the Southern Shade Tree Association.

Travis Windham of Luverne has been elected president of the Alabama Association of Housing Authorities.

Arnold Dean Blackwell, Montgomery insurance executive, has been selected to fill a vacancy on the City Water Works Board of Montgomery.

Roy Lockhart has formed the Roy Lockhart & Co. Insurance Agency in Birmingham. He was previously General Agent for Aetna Life Insurance but resigned that position to form his new agency in order to devote full time to his personal clientele.

Herbert G. Hard, Jr., has been named Technical Staff Assistant to the manager of Orr Industries Co. of Opelika, a division of Ampex Corporation. The new position comes as a promotion to Hard, who has been serving as manager of the engineering division of the company.

Dr. **E. T. York,** director of the Auburn Agricultural Extension Service, has been appointed to Southern Regional Educational Board's Commission on graduate education in the agricultural sciences.

Dr. **Grover C. Thornton, II,** Clayton veterinarian and cattleman, was featured recently in the **Montgomery Advertiser** as Clayton's busiest citizen. He is president of the Clayton Baptist Brotherhood, Clayton P-TA, Barbour Association Brotherhood, a Sunday School teacher, and Chamber of Commerce director.

Married: Suanne Reid to Maj. **Craig Lee Jackson** in Montgomery on April 22.

Born: A son, Charles Manford, III, to Prof. and Mrs. **Charles M. Kelley** of Auburn on Feb. 19.

New Addresses: John N. Cooper, Jr., Findlay, Ohio; **Ernest C. Burgin, Jr.,** Lenox, Mass.; **James H. Nichols,** Bartlesville, Okla.; **T. P. Embrey,** Atlanta, Ga.; and **Robert B. Allan,** Los Altos Hills, Calif.

1943

Maj. **Charles D. Orrison** is chief of the navigation section in a "Hurricane

(Continued on page 11)

The Name Is Golemon

Last month the editor of *The Alumnews* scribbled some missing names under pictures on a page proof, ignoring in the rush of things the old journalistic admonition to take time to print corrections. As a result the linotype operator mistook *Albert S. Golemon* in our illegible scrawl for Albert S. Coleman. Hence under the accompanying picture of Albert S. Golemon, '24, distinguished Houston, Tex., architect, appeared the caption *A. S. Coleman.* Our apologies to Mr. Golemon, who, by the way, did not complain of this carelessness—we discovered the error ourselves, but too late.

A. S. Golemon

Auburn Grads Honored As Dogs' Best Friends

Recently a group of blind residents of Baltimore, Md., honored a trio of Auburn alumni as their dogs' best friends. The three—Dr. Bryant C. Vinson '30, Dr. Edmund H. James, Jr., '42, and Dr. Richard H. Seabrooks '55—are Baltimore veterinarians.

They provide free medical service to approximately 40 of the highly-trained German shepherds, collies, and boxers that serve as eyes for that many blind Baltimore citizens.

Dr. Bryant Vinson started the service in 1929 with his brother, the late Dr. Fletcher Vinson '18, in order that illness of the dogs might be kept to the minimum. The importance of such service becomes clear when one considers that during the illness of a seeing eye dog "his master again has lost his vision."

Dr. James and Dr. Seabrooks joined Dr. Vinson in offering the service when they went with him in Baltimore.

In honoring this Auburn trio, the Baltimore blind presented a plaque that says, "Because of your humaness and humanity, we have seldom walked alone."

Auburn Alumni-Coached

Auburn has more school alumni on its football coaching staff than any other team in the SEC. Coach Ralph Jordan and seven of his team co-workers are graduates of the Plain.

Ladies of The Plain were not content to let the men of Auburn assume the lead in the Development Program. Among the prominent women at the kick-off meeting here to listen to Dr. Ralph Draughon and General Chairman Alvin A. Biggio were those above. They are, seated left to right, Mrs. Mollie Hollifield Jones and Miss Zoe Dobbs; standing, Mrs. Aline S. DeBardeleben, Mrs. Lewis A. Pick, and Mrs. Alma Whatley.

ALUMNALITIES—Continued

Hunter" Weather Reconaissance Squadron in Bermuda. His squadron has the responsibility in the Central Atlantic and Caribbean area and ranges eastward to North Africa. He penetrated and "fixed" seven hurricanes last summer. With him in Bermuda are his wife, Docia, and children—Michael, 12; Charles, Jr., 6; and Carter, 3.

James D. Tyler is with the First National Bank in Opp.

Gaylor B. Murphy is now Mrs. Gaylor Murphy Edgeworth of Tallahassee, Fla.

New Addresses: Earl C. Pritchard, Mobile; **Lester N. Shannon, Jr.**, Anniston; **James D. Faulkner, Jr.**, Midway; **K. Fondren Molton**, Hammond, Ind.; **William Bailey, III**, Birmingham; **Richard H. Houston**, Richardson, Tex.; **Herman Kockritz**, Dresher, Pa.; **John C. Hearn**, Honolulu, Hawaii.

1944

Dr. **Harold W. Nance**, who is engaged in the private practice of veterinary medicine in Lawrenceburg, Tenn., has been elected president of the Rotary Club there.

George L. Cobb has been named works manager for the East Fultonham plant of Columbia Cement Corporation in West Virginia. Cobb joined the West Virginia plant in 1946 as a maintenance engineer and had worked his way up to chief engineer, the position that he held until his recent promotion. He is married to the former Dorothy Burns of Magnolia, Ark., and they have two children—George Jr., 15; and Jan, 7.

David E. Buck, formerly general program engineer for Southern Bell Telephone Co. in Mississippi, has been promoted to personnel manager in Mississippi for the company.

Isabelle Downey is pursuing advanced studies at the University of Georgia in Athens.

Born: A daughter, Kathryne Lynne, to Mr. and Mrs. **Robert Dudley Erwin, Jr.** (Kathryn Tarrant '47), of Birmingham on Feb. 18.

New Address: Benjamin S. Jenkins, Birmingham.

1945

Dr. **Francis J. Mulhern** recently received the Zeta award from Omega Tau Sigma Fraternity in Auburn for outstanding services rendered to veterinary medicine. He is associated with the animal disease eradication division of the U. S. Department of Agriculture.

Born: A son, Darnall Glenn, to Mr. and Mrs. Thurston Crawford (**Sarah Glenn**) in Columbus, Ga., on February 16.

New Addresses: Mrs. Katherine Yarbrough Russell Horton, Madison; Mrs. **Stella Glenn Kelly**, Tampa, Fla.; Dr. **Palmer H. Bell**, Birmingham; Mrs. **Virginia E. Bell Fuller**, Huntsville.

1946

New Addresses: Capt. **Wyatt B. Pouncey**, Thomasville, Ga.; Mrs. **LaVerne Allen**, Richmond, Va.; Mrs. **Mary Sue Green Campbell**, Greenville, S. C.; **Monroe Floyd**, Dallas, Tex.; **Malcolm B. McRee**, Birmingham; **John Reid Roueche**, Slidell, La.; **Charles S. Towery**, Charleston, W. Va.; **Preston C. Bennett, Jr.**, Fort Pierce, Fla.

Dr. **Aubrey G. Robinson** is now enrolled in the second year of Dental School at the University of Texas.

1947

Dr. **Robert Y. Lewis** is practicing veterinary medicine in Fort Walton Beach, Fla.

Grayson H. Parker has been promoted to assistant manager of the Georgia Inspection and Rating Bureau, South-Eastern Underwriters Association, in Atlanta.

Dr. **John E. Deloney** is Lee County chairman for the 1960 crusade of the American Cancer Society. He is associate professor of agricultural education at Auburn University.

Dr. **Thomas H. Yarbrough** is a chiropractor in Oakdale, La.

Cdr. **Walter J. Wright** recently took part in Operation "Skyhook," a balloon launching and recovery project conducted in the Caribbean. He is serving with Airborne Early Warning Squadron 4.

Karl Tyree of Florence has been elected vice president of the Alabama Association of Housing Authorities.

Dr. **Autry L. Bailey**, principal at Pell City High School, will become administrative assistant at Snead College in Boaz on July 1. His work will be largely in the field of public relations, student recruitment, and admissions.

New Addresses: Mrs. **Thelma Meherg Evans**, Titusville, Fla.; **Clarence H. Cobleigh, Jr.**, Decatur, Ga.; Mrs. **Phyllis Rice O'Neal**, Decatur, Ala.; Mrs. **Florine Cook Barber**, Mobile; Mr. and Mrs. **S. Stanley Jones** (Sue Hawkins '45), Atlanta, Ga.; **Herbert S. Sutton, Jr.**, Nashville, Tenn.; **William E. Lakeman**, Forest Park, Ga.; **Warren G. Johnston**, Evergreen.

1948

Frank E. Boyd, Jr., president of National Motor Fleets, Inc., in Birmingham, has been elected Alabama state director for the Car and Truck Renting and Leasing Association, which has headquarters in Chicago.

George K. Brown is vice-president of the Birmingham Association of Life Underwriters.

Robert Haygood Howell is the co-patentee of a patent recently assigned to Texaco, Inc., which deals with the improvement in regenerating ion exchange particles. He is presently employed as a project engineer in the process engineering department at Texaco's Port Arthur Works.

Solicitor **Tom Young** of Alexander City has entered the race for circuit judge in the Fifth Judicial Circuit.

Dr. **E. B. Vinson** is an insect specialist in charge of Dexter Termite and Pest Control in Birmingham.

Charles Harper, Monroe County conservationist, recently was awarded the Department of Agriculture Certificate of Merit at the annual meeting of conservation department employees in Birmingham.

Wallace L. Dawkins is supervisor of distribution for the Gulf Power Co. in Pensacola, Fla.

Mr. and Mrs. **William Lee Cox** (Lillian Ann McGlaun) of Columbus, Ga., have adopted a son, Robert Earl, born October 15, 1959.

Born: a son, David Warner, to Mr. and Mrs. **W. G. Peterson** in Montgomery on March 8 . . . a son, James Wesley, to Mr. and Mrs. **James D. Duren, Jr.**, in Birmingham on March 9 . . . a son, John Pointer, to Mr. and Mrs. **Edward M. Eitzen** in Birmingham on Feb. 25.

New Addresses: Mary P. Brown, Ricadia, Calif.; **Charles F. Smith**, Peoria, Ill.; **James L. Ingley, Jr.**, Chamblee, Ga.; **Charles K. Brown**, New Port, R.I.; **William B. Land**, Dawson, Ga.; **Joseph B. Sellers**, Louisville, Ky.; **Howell S. Lowe**, Palisades, N. Y.; Mrs. **Yvonne Morgan Scott**, Los Angeles, Calif.

William H. Barber, Mobile; Mr. and Mrs. **Warren J. Browning** (**Mary Emma Taylor**), Schwenksville, Pa.; **Comer B. Thompson**, Oakland, Calif.; **John H. Saunders, Jr.**, Tampla, Fla.

1949

L. Glenn Thomas, Jr., is owner and manager of Thomas Tractor Co. in Ocala, Fla.

James Thomas Yarbrough is associated with Humble Oil and Refining Co. in Houston, Tex.

Walter B. Dubberley, Jr., is associated with Brauco Woods Products Co. in Fort Deposit. He and Mrs. Dubberley have three sons, "Rusty," Chris, and Steven.

Born: a daughter, Frances Jane, to Mr. and Mrs. **Donald B. Farnham** (**Frances C.**) in Montgomery on March 9 . . . a son, Robert William, to Mr. and Mrs. Frank L. Frailey (**Gloria Baldwin**) in Harrisburg, Pa., on Feb. 29. He has a brother, Frank, Jr., 3 . . . a son, George Miles, to Mr. and Mrs. **Renis O. Jones**, in Montgomery on Feb. 18.

Robert Pattillo

Robert N. Pattillo was recently appointed Director of Public and Employee Relations at the U. S. Rubber Co. Plant in Mishawaka, Ind.

Richard H. Medley is employed by Niagara Chemical Division of Food Machinery and Chemical Corp. as territory manager of Alabama, S. W. Georgia and N. W. Florida. He lives at Headland.

James L. Killian

James L. Killian has been named project engineer in charge of the tire technical section of the International B. F. Goodrich Co., in Akron, Ohio. He was manager of the company's European technical service with headquarters in The Hague, Holland from 1957 to 1959. He is married to the former Annelle Waller of Auburn.

New Addresses: Francis J. Moseley, Union Springs; Mrs. **Margaret Strickland Serrato**, Columbus, Ga.; Lt. **Dendy**

(Continued on page 12)

Dr. and Mrs. W. V. Parker inspect the new book of which he is senior author.

Result Of Many Years Of Research—

Dr. Parker Publishes Advanced Text

Dr. W. V. Parker, dean of the Auburn Graduate School and head of the Auburn Mathematics Department, is the senior author of **Matrices**, a new text for college seniors and graduate students, released this month by Ronald Press of New York. Co-author with Dr. Parker is Dr. James Clifton Eaves, head of the Mathematics Department at the University of Kentucky and former Auburn professor.

The book presents a logical development of the theory of matrices, which has been developed by pure mathematicians such as its authors, but which is gaining more and more widespread interest because of its adaptation in recent years to applied mathematics, particularly computation. Thus a knowledge of matrices is often required in engineering, statistics, economics, psychology, operation analysis, social studies, and agricultural production economics, as well as in pure mathemamatics.

Although **Matrices** has just been published for general distribution, it has been used in mimeograph form at Auburn and the University of Kentucky for several years. Drs. Parker and Eaves wrote most of it while Dr. Eaves was teaching in Auburn.

Dean Parker's work with matrices has covered a span of many years and is well-known throughout the world. His interest in the subject began when he was a graduate student working for an M.S.; he did his doctoral dissertation in another area but upon its completion turned back to matrices for research and publication. As a result he has published 25 to 30 articles on matrices and determinants in this country, England, and Japan over a period of 28 years. Requests for copies of those articles have come to him not only from the countries in which they were published but also from Canada, Brazil, England, Belgium, New Zealand, and South Africa.

Matrices is dedicated to Mrs. Parker (nee Carolyn Edwards) and Mrs. Eaves.

ALUMNALITIES—Continued

E. Lewis, Tampa, Fla.; **Tee H. Heitt, Jr.** Atlanta, Ga.; **John H. Hood**, Langdale; **Jesse O. Walker, Jr.**, Dayton, Ohio; **Joseph H. 1951

Mrs. **Marjorie Sands Gullatt** is Food Analyst with Kraft Food Products in Atlanta, Ga. She lives in Decatur, Ga.

Dr. **Robert T. L. Long** is now at the U. S. Public Health Service Hospital in Seattle, Wash., after having finished two years of work at National Institute of Health in St. Louis, Mo. He expects to return to Barnes Hospital in St. Louis in June to complete work in heart, chest, and lung surgery.

Curtis C. Rosser, principal of the Sand Rock High School, has qualified as a candidate for superintendent of education of Cherokee County.

William R. Dickson, architect, was recently named outstanding man of the year by the Huntsville Junior Chamber of Commerce. The award was presented by Virgil Willett '50, state president of the Jaycees.

Jere R. Hoar was awarded the Ph.D. degree in mass communications by the State University of Iowa at its February, 1960, commencement. He is associate professor of journalism at the University of Mississippi, and he and Mrs. Hoar have two children, Lu Ann, 5, and Tom, 1.

Dr. **Samuel T. Coker**, dean of Auburn University School of Pharmacy, represented Auburn at the Decennial United States Pharmacopeial Convention in Washington, D. C., March 29-30.

Born: A son, Monroe Tuttle, to Mr. and Mrs. **Thomas A. Jones, Jr.**, in Huntsville on Nov. 11; they have two other children, Thomas A., III, 5, and Janice Irene, 7 . . . a son, Arthur Warren, to Mr. and Mrs. **Thomas Steber** in Mobile in Dec. The Stebers have two other boys, Thomas Jr., 5, and Christopher Lee, 3. . . . A son, Anthony Philip to Mr. and Mrs. **Carter H. Kyser** in Montgomery on March 10 . . . a son, David Ray, to Mr. and Mrs. **Harvey R. Houston** in Murfreesboro, Tenn., on March 15.

New Addresses: Warren S. Thompson, Baton Rouge, La.; **James E. Murphy**, Lexa, Ark.; **Charles C. Needham**, Huntsville; **Ray G. Anchors, Jr.**, Parkton, Md.; **Charlie L. Wise, Jr.**, Richmond, Va.; **James W. Lindsey**, North Olmstead, Ohio; **Thomas L. Allen**, Tampa, Fla.; **James H. Sibley**, Greenville, Tenn.; **Walter R. Hoag**, Pfafftown, N. C.; **Robert J. Seay, Jr.**, Pittsburgh, Pa.; Mrs. **Katie Jo Boone Brandt**, Metairie, La.; **Charles J. Jenkins, III**, Morehead, Ky.; **Jimmy B. Campbell**, Fairfield; **Robert J. Sparks**, New Orleans, La.; **Leland H. Barton**, Montgomery; **William G. Stackhouse**, Decatur.

Horace Baker is employed in the Architectural Dept. of Rust Engineering Co. in Birmingham.

1952

Capt. and Mrs. **Charles J. Fricke** (Mary Elizabeth Walker '51) have returned from a three-year tour of duty in Germany and now have a regular assignment at Ft. McClellan.

M. Jerry Fortenberry is an achitectural examiner with the Federal Housing Administration in Birmingham.

Edward J. Hugensmith, Jr., is associated with Hugensmith Materials, Inc., in Birmingham.

Joseph B. Trotter is an engineer with the U. S. Engineer Corps in Mobile.

E. L. Spencer, Jr., was recently pre-

(Continued on page 13)

Charles Davis Becomes AIA Fellow

Charles Francis Davis, Jr., '32, Birmingham architect, has been elevated to Fellow of the American Institute of Architects, one of the most coveted honors of the architectural profession. A member of the firm Van Keuren, Davis and Co., Mr. Davis' most outstanding contribution in architecture has been in school design.

The Jury of Fellows of AIA responsible for his elevation chose the new Health Science and Research Building in the Medical Center at Birmingham, the Center Point Elementary School (Jefferson County), and the Drennen Cadillac Building in Birmingham as his most distinctive designs.

Among the other outstanding buildings that his firm has been associated with are the Howard College Campus, Hueytown High School, a new addition to the office building of Alabama Power Co., and St. George Melkite Church, all in the Birmingham area. The latter won a First Honor Award in the Architectural Competition of the Birmingham Festival of Arts last year.

On the Auburn campus they have designed Thach Hall and the Plant Sciences Building, now under construction on Ag Hill, and have been commissioned to design Auburn's proposed new library.

Charles F. Davis, Jr., . . . honored

Another recent design of a geriatrics hospital, Stringfellow Memorial Hospital in Anniston, has won widespread recognition. Recognized by AIA the hospital exhibit was hung in the gallery at the Octagon in Washington, D. C., during January and February. The design was published in the *AIA Journal* in February and in the *Modern Hospitals Magazine* in March. It is now being exhibited in South American universities by the U.S. State Department.

Born in Montgomery, Mr. Davis attended the public schools of Hartford and Montgomery and received his Bachelor of Architecture Degree from Auburn University in 1931 and in 1932 his Bachelor of Architectural Engineering.

While at Auburn, he received the American Institute of Architects Student Medal. He is a member of Spades, Omicron Delta Kappa, Scarab, Scabbard and Blade and Phi Kappa Phi Honorary Societies and Lambda Chi Alpha Social Fraternity. He was a Chapter President in 1930 and editor of the 1930 "Glomerata."

From 1932 to 1934 he was an instructor in the School of Architecture at Auburn.

In 1935 he joined the Birmingham architectural firm of Miller, Martin and Lewis as a draftsman. He held this position until 1938, when he joined E. B. Van Keuren as a designer.

In 1946 he became a partner in the firm, a position that he held until the founding of the present firm, Van Keuren, Davis and Company, in 1949.

Mr. Davis is married to Helen Sellers '35 and has three children. He resides at 20 Pine Crest Road.

The newly elevated Fellow is a member of South Highland Presbyterian Church, Elder since 1948; Christian Education Committee of Birmingham Presbytery; Advisory Committee to the Department of Church Architecture—Board of Church Extension, Presbyterian Church in the United States; Birmingham Exchange Club; Vestavia Country Club; Salvation Army Advisory Board; Board of Management—Five Points YMCA; Jefferson County Association of Architects and Alabama Chapter, American Institute of Architects.

ALUMNALITIES—Continued

sented a distinguished service award at Auburn Jaycess annual awards banquet. He was recognized for his contributions to the community while serving as president of the Chamber of Commerce in 1959.

Frances Evelyn Elliott is teaching at Martin Elementary School in Birmingham.

Dr. **Virgil W. Hagan, Jr.**, dentist, has been elected president of the Lineville Jaycees for the next year.

James W. Steadman is head of Engineering Inspection and Test Dept. at Engalls Shipbuilding Corp. in Pascagoula, Miss.

Born: A daughter, Virginia Lois to Mr. and Mrs. **Walter Edgar McGee** in Cordele, Ga., on Feb. 13.

New Addresses: Horace M. Bolton, Atlanta, Ga.; **J. Jackson Hornsby,** Atlanta, Ga.; **John M. Dobbs,** Marietta, Ga.; **Wayne McElrath,** Cedar Bluff; **Charles B. Mathews,** Auburn; Mr. and Mrs. **Paull F. Jernigan** (Arabelle Bryne '50) Decatur; **Frank L. Hendrix,** Cullman; **Hunter B. Parker,** Donalsonville, Ga.; **Gustav C. Utter,** Pine River, Minn.; **A. Michael Creest,** Hueytown; **Donald C. Harris,** Gardena, Calif.; **Ralph E. Montgomery,** Gonzales, Tex.; Capt. **Daley H. Stanford,** APO New York, N.Y.; **Edward T. Hollowell,** Halifax, N. C.; **John D. Harris, Jr.,** De Funiak Springs, Fla.; **William R. Armour,** Birmingham; **David A. Boyett, Jr.,** Talladega; **Sam F. Ledbetter, Jr.,** Linden; Mr. and Mrs. **Thomas H. Yancey** (Jeanne Johnson '53), New Orleans, La.

1953

Kenneth L. Nall has been transferred with the Chemstrand Corp. from Decatur to Pensacola, Fla., where he is the Operations Senior Engineer at the newly constructed multi-million dollar Nylon Development Center. Mrs. Nall is the former Earlene Goldsmith '52.

F. W. Osborn, Jr., is associated with Frank W. Drake and Associates, representing Massachussets Mutual Life Insurance Co. in Florence.

Lt. **James B. Raymond** is serving with the Army in Korea. He expects to return to the States in May or June.

Carl O'Neal Jones is principal of Atkinson School in Newnan, Ga.

Dr. **Hugo Waldheim, Jr.,** who has been practicing medicine in Vero Beach, Fla., has returned to Opelika where he is again associated with Drs. Byron and Jim Bruce.

John A. Robertson has been named to the staff of the New Orleans office of Connecticut General Life Insurance Co. He is married to the former Faye Samford of Auburn and they have a son, John A., Jr., 4, and a daughter, Polly, 1.

William R. Hill, who is employed by the Alabama Power Co., has been assigned to the Enrico Fermi Plant of the Power Reactor Development Co. at New Port, Mich. He is living in Trenton, Mich.

Dr. **John C. Glenn** has joined the staff of the Imperial Ethiopian College, a joint Ethiopia—U. S. project, after receiving his Ph.D. in Animal Breeding at Oklahoma State University in 1959. He teaches courses in animal husbandry and is in charge of the livestock breeding program. His wife and three children live with him on the campus which is located 30 miles east of Dire Dawa, Ethiopia.

Capt. **John E. Ramsey** was recently promoted from the rank of lieutenant in the USAF. He is stationed at Columbus AFB, Miss.

Married: James W. Brazell to Eleanor Fay Johnson in Atlanta, Ga., on April 9. He is employed by Lockheed Aircraft Corp. as a nuclear engineer at Georgia Nuclear Laboratories in Dawsonville.

Born: A daughter, Meredith Jeanne, to Mr. and Mrs. **George Park** (Jeanne Wainwright '51) in Orlando, Fla., on Feb. 23 . . . a son, Robert Neal, to Mr. and Mrs. David Hainlin (**Nancy Evans**) in Salt Lake City, Utah, on March 15 . . . a daughter, Sandra Jean, to Mr. and Mrs. **William Floyd McCreery** in Auburn on March 9 . . . a daughter, Lisa Ann, to Mr. and Mrs. Don O. Brush (**Ann Alvord**) in Palo Alto, Calif., on Sept. 28, 1959.

New Addresses: Dr. **James B. Murphy,** Altamonte Springs, Fla.; **Obery G. Lawson,** Parrish; **James E. Barnett,** Huntsville; **James G. Watwood,** Macon, Ga.; **Jack L. Hunter,** Thomaston, Ga.; Mr. and Mrs. **George D. Stewart, Jr. (Olene Lovvorn),** Oneonta; Mrs. **Kathryn Pruitt McDonald,** Birmingham; **John P. Figh,** New York, N. Y.; **James R. Webb,** Hueytown, Mrs. **William E. Jarvis,** Greenville, S. C.; **Jasper B. Stewart, Jr.,** De Funiak Springs, Fla.; Dr. **Buford L. Whitt,** Huntsville; **Charles B. Hendrix,** Birmingham; **Marion T. Battiste,** Theodore.

1954

Curtis Brasher and his father, B. G. Brasher, are construction engineers for all-electric home projects in Birmingham.

Sp5 **Robert D. McGuire** is serving with the Army in Korea and his wife, daughter, and son are residing in Crestview, Fla.

Mrs. **Ruby P. Puckett** and her family have moved to San Juan, Puerto Rico.

Mrs. **Thomas G. Cousins** (**Ann Draughon**), working with Mrs. C. Edward Hansell, captured the Best-in-Show Purple ribbon recently during Atlanta's first Festival of Flowers at the Art Museum.

Billy G. Oswalt is associated with the Underwriting Dept. in the home office of the Alabama Farm Bureau Insurance Co. in Montgomery.

Albert Lee Smith, Jr., is associated with the Jefferson Standard Life Insurance Co. in Birmingham.

Mrs. **Jane Dowis Hinton** is a teacher at Murphy High School in Atlanta, Ga.

Fred J. Harris, Jr., has been promoted to department manager in Plant I of The Firestone Tire and Rubber Co. in Akron, Ohio. He and his wife have three children, Fred III, 7; William, 4; and Charles, 2.

Born: A son, Bret Lamar, to Mr. and Mrs. **Jimmy Parrish** (Harriet Ann Grubb '55) in Dothan on Oct. 25, 1959 . . . a son, Gregory Michael, to Mr. and Mrs. **Melville W. Fuller, Jr.,** in Chapel Hill, N. C., on March 8 . . . a daughter, Anne Elizabeth to Mr. and Mrs. **Arthur D. Moore, Jr.,** (Libba Scruggs '56) in Columbus, Ohio, on March 12 . . . a son, Philip Noah, to the Rev. and Mrs. **Noah Lisenby** in Montgomery on March 11 . . . a son, Van III, to Mr. and Mrs. **C. V. Saunders (Martha Ann Sanders)** in Monticello, Ga., on Feb. 27 . . . a son, Michael Logan, to Mr. and Mrs. **Douglas J. Sellers, Jr.,** in Birmingham on Feb. 22 . . . A future Tiger left guard, James Alton, to Mr. and Mrs. **L. A. (Tony) Wood** (Becky D'Arcy '58) of Miami on Dec. 31, 1959. Jimmy joins big sister Martha, 3.

Married: Marlene Young to **Al Christopher** in Long Beach, Calif., on Dec. 19. They are living in Bell, Calif.

New Addresses: J. Douglas Maund, Athens, Ala.; **Houston O. Baker,** Mobile; **Grady B. Lake,** Demopolis; **George F. Huffman,** Phoenix, Ariz.; **James O. Holley,** Somerville, N. J.; **Hector A. McDonald,** Canyon, Tex.; **Edwin L. Roberts, Jr.,** Memphis, Tenn.; **Bobby E. Tidmore,** Prichard; Mrs. **Mary Jo Peacock Wasson,** Auburn; Mr. and Mrs. **Robert M. Wright** (Nancy Cunningham '56), Chattanooga, Tenn.; Mrs. **Betty Ray Langford,** LaFayette; Mrs. **Glenda C. H. Cummings,** Guntersville; **J. Bill Edwards,** Columbus, Ga.; **Stephen G. Darby, Jr.,** Billingsley.

1955

Robin A. Hur is in the Graduate School of Business Administration at Harvard University.

Robert P. St. Pierre is a Federal bank examiner for the U. S. Treasury Department and has his home office in Dallas, Tex.

Donald A. Britt is associated with Riverside Military Academy in Gainesville, Ga.

Stephen J. Buckley, III, is employed with Southern Railway Co. with office in Cincinnati, Ohio, and residence in Florence, Ky.

Munsey G. Overstreet, Jr., is with Pearce & Gresham Co. in Decatur.

Mr. and Mrs. **Joe W. Brown** (Betty Lou Moultrie '54) and son, William Christopher, who was born last June 25, are now living in Mobile, where Joe is with Lever Brothers.

M. Nolan Brown is working with American Airlines, Inc., and at present is in their management candidate training program in San Diego, Calif. He is married and has a son.

Married: Nina Pearl Smith to Charles Edward Swanson in Granada, Miss., on Feb. 28. They are living in Chicago Heights, Ill.

Born: A son, Donald Alan, to Mr. and Mrs. **Drew A. Brown** of Decatur, Ga., on Jan. 25 . . . A son, David Hollister, to Mr. and Mrs. **C. S. Doss** of Montgomery on March 2 . . . A daughter, Jane Lewis, to Mr. and Mrs. **William W. Clarkson** (Elizabeth Burks), of Lynchburg, Va., on Oct. 7, 1959 . . . A son, Gerald Reese, to Mr. and Mrs. **Joseph A. Stone, Jr.,** of Huntsville on Feb. 23.

S. Eugene Dekich, who is completing his senior year at Jones Law School in Montgomery, was initiated into the Alpha Sigma Chapter of Sigma Delta Kappa, intercollegiate law fraternity on March 11. He is employed by the State Mutual Life Assurance Company of America as assistant general agent for the Birmingham office. For the past three years Dekich has received the State Mutual award for outstanding salesman in Alabama, and he is the author of several articles in leading insurance magazines.

Eugene Dekich

Director of Libraries Clyde H. Cantrell admires a main lobby display that his staff arranged to celebrate National Library Week. In his hand he holds the handwritten book of minutes of the transactions in 1907 that led to the building of the Carnegie Library here.

Books That Changed The World

Dr. Robert B. Down's *Books that Changed the World* inspired one of the Auburn University Library's main lobby exhibits for National Library Week celebrated recently. A portion of the exhibit was caught by our photographer in the picture above.

The library staff planned the exhibit for "the purpose of encouraging each viewer to make up his own selection of 'Books that Changed the World'."

Dr. Down's selection is instructive in itself; for that reason and in order to further promote the library staff's purpose, *The Alumnews* passes on the complete list, which is as follows:

Machiavelli's *The Prince*, Paine's *Common Sense*, Smith's *Wealth of Nations*, Malthus' *Essay on the Principle of Population*, Thoreau's *Civil Disobedience*, Stowe's *Uncle Tom's Cabin*, Marx's *Das Kapital*, Mahan's *The Influence of Sea Power Upon History*, MacKinder's "The Geographical Pivot of History" from *Democratic Ideals and Reality*, Hitler's *Mein Kampf*, Copernicus' *De Revolutionibus Orbium Coelestium*, Harvey's *De Motu Cordis*, Newton's *Principia Mathematica*, Darwin's *Origin of Species*, Freud's *Interpretation of Dreams*, and Einstein's *Relativity; The Special and General Theories*.

New Addresses: Clifford Ray Clark, Tallahassee, Fla.; **Howard C. Bozeman, Jr.,** Leesburg, Fla.; Lt. and Mrs. **John R. Yates** (Jo Ann Pullen), Woodland; **John Stanley Barton,** Auburn; Mrs. **Katherine Boyd Randol,** Birmingham; **Carolyn A. Ross,** Orlando, Fla.; **Luther B. Whitehead, Jr.,** Cabin Johns, Md.; **Joe L. Rawls,** Jonesboro, Ark.; Lt. **William H. Larimore,** El Paso, Tex.; **Isaac R. Prather,** Tuscaloosa.

Mrs. **Nancy Atkinson Barnett,** Huntsville; **Gene S. Sessions,** Troy; **William M. Lee,** Montgomery; Mr. and Mrs. **Paul C. Stegall** (Jean Walker '57), Atlanta, Ga.; Mr. and Mrs. **Carol C. Cunningham** (Barbara Ellen Morgan '55), Mississippi City, Miss.; **John H. Wright,** Asheville, N. C.; **John T. Hudson,** Jackson, Miss.; Mrs. **Melba Payne Rothschild,** Dania, Fla.; **Beatrice R. Wheeler,** Talladega; **Wardie W. Ward,** Norwalk, Calif.; Mr. and Mrs. **Billie C. Horne** (Jo Anne McCue '58), Birmingham.

1956

Dr. **Jere M. Phillips** is now in partnership with Dr. Rufus O. Moore, **Jr.,** '38, in Moore's Veterinary Hospital in Tuscaloosa.

April Brings Politics To The Campus—Above candidates for top posts in campus publications enjoy themselves at a reception in the President's Mansion. They are (l. to r.) Wendell Mitchell and Ann Case, opposing candidates for **Glomerata** editor, and Bob Jennings and Jim Phillips, both seeking the post of **Plainsman** editor.

letters from alumni and friends

Dear Editor:

Perhaps you will be interested in some ideas about a member of the class of '09 and what Auburn was like then.

I entered as a sophomore without any examination as I had taken college algebra, plain and solid geometry, calculus, and other subjects in a private high school in Birmingham. There was a sub-freshman class for those whose education was limited and the total enrollment was less than 600.

There were only a few co-eds and our class had only two, Hattie Finley and Ira Lee Whittaker, both of whom are still living.

There were no dormitories for girls and only one for boys and the students stayed at private boarding houses. My last year I ate at the boys dormitory and my food bill was $11.00 per month. We had student waiters and when one of the paying students finished eating the waiter ate at our table. "Daddy Street" was our waiter; five members of our class were on the college football team; and "Mike" Donahue was our coach. Being too small I was not on any of the college athletic teams, but played class baseball in the outfield.

I made an A average all three of my years, but was not classed as a "grind," as I liked to hunt and fish. In my senior year I was given a Botany scholarship of $125.00.

I have been to all of our class reunions except the last one as I was in a hospital last Fall.

Yours truly,
Chester D. Allis '09
Pinson, Ala.

* * *

Dear Mr. Editor:

Little B. B. sent me a clipping from your publication concerning the writers for the Auburn *Plainsman* of which he is one and the best. As his maternal parent I am overly concerned about the implications and insinuations voiced in your column about both my dear son and myself. (I am writing much more intelligenty to you than I did to the *Plainsman* since your comprehension and that of your more mature readers is obviously greater than that of the juvenile student body.)

First off, by saying that little B. B. hid behind someone—Byrd I believe it was, is implying a cowardice that is unheard of in the Shot family. No Shot ever hid from a camera in the history of photography. He was deliberately omitted! Not that I mind him not spending too much time in the company of those unscrupulous *Plainsman* writers; but to ignore his value to the paper by leaving him out is to separate the ice from the ice cream.

You referred to him as irrepressible. Any idiot can see that he's the most repressed soul in the world. And as his mother I ought to know! It's certainly repressing to be denied credit for genius, which you've done to him, the poor sensitive soul. The way his teachers, fellow students, and the *Plainsman* staff are always repressing him—and now you, it's a wonder that the poor boy is still able to carry on with his work. He cried about it all during spring holidays. And if it doesn't stop I'm going to write the governor or somebody!

My letter to the *Plainsman* was not indignant, it was very formal. It was very dignant too!

By now you must have received scads of mail about your obvious ill treatment of little B. B. If such things are typical of superior college attitudes towards the meek and humble, then I'm sure that a lot of other parents are concerned for the fate of their children at college.

I'll be waiting for an implied or insinuated apology in your next coverage of the *Plainsman* editorial page. The least you could do is to print his picture—the same one that appears in the *Plainsman* if you could have it touched up a bit, he is sensitive you know.

Respectfully,
Mrs. Shots (Miss Emma X. Sneed's Finishing School for Girls, '22)

(Editor's Note: We suspect that the above letter came from little B.B. himself; it came through campus mail without a postmark. Just in case, however, that this is not some more of his Puckish deviltry, let me state clearly that I consider B.B. a very promising satirist, capable of truly great things, if he can break loose the apron strings of Mama Shots.)

SREB Names York To Extension Advisory Unit

Southern Regional Education Board has appointed Dr. E. T. York, Jr., director of the Auburn University Extension Service, to its commission on graduate education in the agricultural sciences.

The commission will advise SREB in an effort to strengthen and expand opportunities in graduate education in agriculture and related sciences.

According to Dr. Robert C. Anderson, director of SREB, "the commission has already made a genuine contribution to agricultural education in the South."

Dr. York will serve on the 16-member board for a term of four years.

Auburn Club News

HUTCHINSON MEMORIAL

The Auburn Club in Jacksonville, Fla., has initiated a plan to keep alive the name of William R. (Dick) Hutchinson '50, who died last fall from a kidney ailment at the age of 31.

Dick was a former track star at both Lee High in Jacksonville and Auburn University and was active in sports promotion in Jacksonville after he left Auburn.

The Jacksonville Club is establishing a Hutchinson Memorial that will provide a permanent trophy at Lee High and a trophy each year to the outstanding athlete there.

BESSEMER HONORS CAGERS

Coach Joel Eaves and basketball seniors Henry Hart and Bayward McManus were guests of honor at a Bessemer Auburn Club War Eagle banquet on March 8.

Highlight of the festivities was a speech by Coach Eaves which was followed with songs by the Auburn Octet.

ALUMNALITIES—Continued

Don Cunningham is division manager in the appliance department of Sears, Roebuck and Co. in Chattanooga. He and his wife have a daughter, Eugenia Ann, 21 months.

Henry C. Kirk

Henry C. Kirk has been promoted to the rank of major at Headquarters, U. S. Continental Army Command at Fort Monroe, Va. Major Kirk first enrolled in Auburn in 1940 but had his education interrupted by World War II, during which he served as a forward artillery observer with the 102 Infantry Division in Belgium and Germany. Later he completed his work at Auburn in off-duty time and received his degree in 1956.

Jack R. Morgan is with the engineering department of Callaway Mills. He, his wife, Emily Hofferbert '57, and daughters, Karen and Stephanie, live in LaGrange.

Richard A. Hartley has completed three and one-half years' training in General Electric's technical marketing program and has been assigned to the Chattanooga Office as sales engineer. The Hartley family, which now includes Allen, 2, and Denise, 2 months, expresses delight at being back in "War Eagle Country" after two years in New York and Massachusetts.

Paul M. Lefstead is now working for the Illinois Central Railroad Co. in Champaign, Ill., and lives in Urbana, Ill.

Edward B. Weaver, Jr., is with Patrick Lumber Co. in Scottsboro.

Lt. (jg) **Gary O. Cooper** returned to Norfolk, Va., in mid-February after participating in Operation "Skyhook" in the Caribbean.

Lt. and Mrs. **B. Q. Scruggs** (Gwen Gravlee '56) are in Formosa where Dr. Scruggs is on duty with the Navy for a two-year tour.

Joseph E. Borches, III, has been promoted to the rank of lieutenant junior grade with the Navy at Navy Point, Pensacola, Fla.

Married: Marilyn Lee Hutton to **Charles A. McDade, III,** in Roodhouse, Ill., on Feb. 14 . . . Laural Tate Lanier to **Dalton P. Bynum** in Statesboro, Ga., on March 20. They are living in Atlanta . . . Charlotte Anne Vaughan to **George Harris Hamner** in Birmingham on April 16.

Born: A daughter, Diane Elaine, to Dr. and Mrs. Hal Owsley (**Jean Askew** '56) at Ft. Stewart, Ga., on March 8 . . . A daughter, Barbara Anne, to Lt. (jg) and Mrs. **Buford A. Harris, Jr.** (Sandra Hanby '60) on July 11, 1959. Lt. Harris is now stationed aboard the USS Franklin D. Roosevelt. He and his family reside in Atlantic Beach, Fla. . . . A son, Charles Michael, to Mr. and Mrs. **Charles D. Faggard** of Mobile on Feb. 11. . . . A son, James Paul, III, to Mr. and Mrs. **James P. Hatcher** (Bessie R. Hale '60) in Birmingham on Feb. 23 . . . A son, Alan Frederick, to Lt. and Mrs. Ben H. Kirkland (**Ruth Mary Wise** '56) in Tachikawa, Japan, on Feb. 18 . . . A son, Ingram P., III, to Dr. and Mrs. **Ingram P. Johnson, Jr.**, of Memphis, Tenn., on Nov. 18, 1959 . . . A son, John Anderson, to Mr. and Mrs. **Harry Coons, Jr.**, (Aleta Whatley '52) of Huntsville on Feb. 29 . . . A second son, Walter Chisolm, to **William P. (Bill)** and **Rebecca Chisolm Hutto** five minutes before Jimmy Fibbe popped in the one-and-one foul "to skin the Cats." Walt's birthday, oldstyle, is Feb. 20. He joins big brother Bill, Jr., in the Hutto household over in Decatur, Ga. . . . A daughter, Carol Lucinda, to Mr. and Mrs. **Robert Lee Buettner** (Jeanette Jacobs '56) of Cullman on Feb. 25. She joins a sister, Deborah Kay, 2 . . . A

(Continued on page 15)

Southern Bell Director—

Frank M. Malone '28 has been elected a Director of Southern Bell Telephone Company. Joining Southern Bell in Atlanta in 1928, Mr. Malone has held many responsible assignments with the company and is now Vice President of Operations for the "West" area, comprised of Alabama, Kentucky, Mississippi, a position that he has held since 1957.

Long active in community and civic affairs, Mr. Malone has held many offices in such organizations. He is now Chairman of the Board of Junior Achievement of Georgia; the Central Atlanta Association, and the Atlanta Chapter of the American Red Cross. He is a member of the Atlanta Rotary Club.

'Auburn Engineer' Chuckles

Probably the reason that God made woman last was that he didn't want any advice while creating the rest of the universe.

ALUMNALITIES—Continued

son, William Milton, IV, to Mr. and Mrs. William M. Teem, III (Betty Ann Nordan '57, on Dec. 10, 1959, in Cambridge, Mass.

New Addresses: **Donald L. Warren**, Gainesville, Ga.; **Elton F. Jones**, Blue Mountain; **Charlie F. Rice**, East Gadsden; **Edwin C. Baum**, Simi, Calif.; **James W. Parrish**, Albany, Ga; **John P. Bryant**, Russellville; **Frank M. Graham**, Athens; **James G. Crouch**, Tucker, Ga.; **William B. Collier**, Fairfield; The Rev. **Robert L. Griffin**, Elgin, Okla.; **Rufus L. Bateman**, Atlanta, Ga.; **Jimmy R. McIntosh**, Dadeville; Mr. and Mrs. **Alan D. McNair** (Angeline Hess '55), W. Palm Beach, Fla.

Kenneth L. Wheeler, Cincinnati, Ohio; Mr. and Mrs. **James E. Peerson, Jr.** (Margaret Anne Farris '58), Brunswick, Ga.; **Charles H. Bryan**, Sheffield, **Benjamin H. Lightfoot, Jr.**, College Park, Ga.; Mr. and Mrs. **Bobby G. Strength** (Janice Grace '56), Greenwood, S. C.; Mr. and Mrs. **William L. Whitten** (Leonora Hunter '56), New Orleans, La.; **Lawrence A. Lucchesi**, Overland Park, Kans.
